

Preferred Pricing for The Anywhere Platform

January 2026

Beautifully
Uncomplicated

Preferred pricing for Public Sector, Charitable Organisations, and Education

For all qualifying organisations we provide a 14% discount off our standard pricing which is detailed below. Pricing for The Anywhere Platform is on an annual subscription basis.

Standard Subscription Pricing	Description
Administration £72 per user per month	Provides access to manage data, users and basic settings in the system. Additional access is provided to configure the solution once certification has been attained at which point configuration features will be unlocked
Advanced User £36 per user per month	Covers typical functions intended for project, programme and portfolio managers who need full function access including generation of reports and dashboards. Covers project task and milestone plan management including risks, issues, changes, status reporting, resourcing and financials. Includes access as per the Team user subscription and timesheet function.
Team Member £18 per user per month	Provides collaboration functions for your team. This includes participating in processes, workflow, notes, comments, tasks, document management, and creating individual dashboards. Includes Timesheet functions.
View & Approve user £6 per user per month	Covers the ability to search projects, forms, users and other system entities. View role-based dashboards and reports for visibility into business trends, status, and deliverables to help execute decisions quickly. Approve form and workflow steps to record key business decisions.

- Pricing is on a per user/per month basis however subscription fees are payable annually in advance.
- Minimum term of 12 months
- Provision of Production and Non-Production environments.
- Subscription covers all hosting, software, maintenance, and technical support.
- Standard Implementation Fees (based on <100 users) £47,000 +/-30% time and materials.
- All pricing is exclusive of tax.

Content Templates

Content templates provide pre-configured content to support specific business outcomes. They are provided under an annual subscription and can be added and removed as required. Template pricing is banded by user volume and starts from £7,660 (per 50 Users) for the PPM/ £7,180 for the GRC or KPI solutions, before any applicable discounts. For each template deployed, pro-rata user pricing decreases as user volumes go up. New templates are occasionally added on the same pricing structure. The content templates currently available are:

Project & Portfolio Management
Strategic Performance Management
Governance, Risk and Compliance

Volume Discounts

- Scaled discounts for total committed spend.
- For multi-year contracts, (3 years plus) additional discounts apply. Any early cancellation clauses make term discounts unavailable
- For participation in TAC's *Customer Reference Programme*, additional discounts apply.
- For customers participating in TAC's *Maturity Acceleration Programme*, additional discounts apply.

Flexible Usage

You may flex your usage by up to an additional 10% of users on top of the contracted volume of users and change the mix of these additional users between the subscription access levels on a month-by-month basis. Fees will be charged quarterly in arrears for additional usage.

Customers can also elect to upgrade contracted subscription types (e.g View & Approve to Team) during the contract year by paying the difference in cost between the subscription types. These changes will apply until the end of the contract term.
