Amplio Case and Process Flow Management System Pricing

Framework reference: G-cloud 15

January 2026

Amplio - Case and Process Flow Management System

Overview

AMPLIO pricing is based on a monthly License fee for the “platform core”. Subscription Licensing terms are done on a monthly (or annual) basis, and the subscription fee covers software access and upgrade entitlements; application support and implementation services are offered separately and are not part of the base subscription fee. Where additional development and implementation costs are incurred, these can be commercialised separately by purchasing our "Platform Implementation" service listed under Lot 3. These costs are derived from the size and scope of the requirements needed by the authority.

The Platform has a flat licencing fee.

AMPLIO
All features and modules included.
Amplio Core: £20,800/month

Assumptions and Caveats

- Prices do not include infrastructure costs (*these scale with your organisation and usage requirements*).
- Support is decoupled operational support is offered via optional plans; no support entitlements are included with the base subscription.
- Pricing does not include VAT
- Customer is responsible for end user devices
- Customer is responsible for appropriate connectivity (including VPNs for chosen infrastructure) for back-office users
- License pack includes provision for 1 Test and 1 Production environment, additional environments can be licensed at additional cost
- Implementation and third-party integration costs are not included in the pricing (*Charged at Netcompany standard Rate card*)
- The platform is inheritably configurable, so we suggest a conversation to work out the best licensing fit for your organisation
- Other license conditions apply please reach out to find out more
