Simitive Workload Allocation Management System (WAMS)

Service Pricing Considerations

Pricing for Simitive WAMS is tailored to accommodate the specific needs of each organisation.

-  Licenses are based on the number of authorised users and the number of hosting environments required.
-  Support costs are based on required support levels.
-  Implementation services are based on your specific scope requirements and the size and complexity of your organisation. We will work with you to size the engagement to meet your business needs.
-  Simitive will invoice annually in advance and invoices are payable within 30 days
-  Educational discounts are available for educational organisations.
-  VAT is not included in published rates.

Simitive Workload Allocation Management System (WAMS)

Pricing Guide: License & Support

Included in the annual license fee:

- Hosting & maintenance (provided as part of the service offering).
- All upgrades and updates to the system.
- 1 production and 1 non-production (test) environment.
- Technical Fix Support according to agreed SLAs.
- Access to Simitive knowledge base.
- Access to Simitive API.

Simitive has a minimum annual license fee of £10,000 per annum plus VAT.
