Pricing

Pricing for this service is as follows;

1. Endpoint Configuration: Discovery, Deployment and Testing will be defined as a professional services package and based on the day rates provided within the Pricing Section of G Cloud 15.
2. Managed Service is based on;
 - a. Number of Microsoft users
 - b. Licence Type (we will advise on suitable options)
 - c. Backup Options
 - d. Microsoft licensing required to fulfil requirements (this can be purchased via Buyer)

These are billed monthly, and available for 12,24- or 36-month contracts.

These are priced on application as Microsoft licence fees are variable.
