

Cloud Architecture Services

About Scott Logic

At Scott Logic, we build user-focused software that transforms the performance of our public and private sector clients. From citizen-centred service design to digital transformation projects, our consultants combine innovation, experience and pragmatism to deliver measurable results with every project.

Our onshore, UK delivery model allows us to attract and retain highly skilled technologists, all of whom are permanent employees, ensuring our clients receive the highest quality of service.

Our clients

Over the last 20 years and more, Scott Logic has built a strong reputation as the partner of choice for many clients across the Public Sector, as well as financial services, retail banking, healthcare, private equity, and the energy sector, including:

Our cloud services

Scott Logic offers consulting services across a broad range of capabilities, including:

-  **AI Accelerator**
-  **Architecture, Migration and Platform Engineering for Cloud**
-  **API Platform**
-  **Service Delivery for Cloud**
-  **Service Design for Cloud**
-  **Cloud Sustainability**
-  **Legacy Modernisation**

Working with Scott Logic

Scott Logic employs only permanent, UK-based technologists who share and embody our guiding values of passion, respect, excellence, collaboration and professionalism. In this way, we ensure that you, as our client, receive the highest quality of service from genuine teams. All of our engagements have Principal-level oversight and Director-level sponsorship, providing clear lines of communication and optimal collaboration. This means we build long-term, enduring partnerships, which drive value and enable our clients to transform their businesses.

Cloud Architecture Services

We partner with you to define and deliver cloud architecture solutions aligned to your business priorities, budgets and organisational context. Our Architects collaborate with stakeholders across the organisation to build a shared understanding, secure alignment, and communicate the technical vision and its value.

Features

- Assessment of cloud maturity, existing capabilities, dependencies and constraints
- Analysis of requirements, NFRs, domain context and business cases
- Pragmatic advice and guidance from AWS and Azure certified Architects
- Continuous stakeholder engagement to ensure alignment on technical vision
- Communication of the architectural vision across the organisation
- Recommendation of context appropriate cloud architectures, patterns and technologies
- Creation and execution of architectural delivery roadmap
- Iterative one-team approach, integrating architecture throughout the entire delivery cycle
- Upskilling and knowledge transfer to key disciplines
- Expertise in EDA, SOA, Microservices architecture and related design patterns

Benefits

- Increase ROI through bespoke scalable cloud architecture solutions
- Alignment with cloud provider Well-Architected Frameworks
- Cloud architecture and vision aligned with business needs
- Shared understanding of architecture strategy across the organisation
- Reduced operating costs and delivery risks
- Integration within existing structures and technical landscapes
- Iterative, collaborative approach that empowers stakeholders
- Pragmatic and adaptable project governance based on lean, agile mindset

Interested in partnering with Scott Logic?

At Scott Logic, we love difficult. Our UK-based permanently employed consultants collaborate with some of the world's biggest organisations, providing a pragmatic approach to designing, developing and supporting cloud services that deliver measurable value.
