

AI-Augmented Development Services

About Scott Logic

At Scott Logic, we build user-focused software that transforms the performance of our public and private sector clients. From citizen-centred service design to digital transformation projects, our consultants combine innovation, experience and pragmatism to deliver measurable results with every project.

Our onshore, UK delivery model allows us to attract and retain highly skilled technologists, all of whom are permanent employees, ensuring our clients receive the highest quality of service.

Our clients

Over the last 20 years and more, Scott Logic has built a strong reputation as the partner of choice for many clients across the Public Sector, as well as financial services, retail banking, healthcare, private equity, and the energy sector, including:

Our cloud services

Scott Logic offers consulting services across a broad range of capabilities, including:

-  **AI Accelerator**
-  **Architecture, Migration and Platform Engineering for Cloud**
-  **API Platform**
-  **Service Delivery for Cloud**
-  **Service Design for Cloud**
-  **Cloud Sustainability**
-  **Legacy Modernisation**

Working with Scott Logic

Scott Logic employs only permanent, UK-based technologists who share and embody our guiding values of passion, respect, excellence, collaboration and professionalism. In this way, we ensure that you, as our client, receive the highest quality of service from genuine teams. All of our engagements have Principal-level oversight and Director-level sponsorship, providing clear lines of communication and optimal collaboration. This means we build long-term, enduring partnerships, which drive value and enable our clients to transform their businesses.

AI-Augmented Development Services

Our AI Augmentation services help to accelerate your software delivery through use of Agentic AI tools. Our approach considers the entire SDLC – from design, implementation, testing to deployment.

Features

- Identify foundations to support AI-accelerated software delivery
- Build a shared understanding of current challenges and goals
- Contextual approach to AI tool selection and implementation
- Identify appropriate use cases for AI tooling
- Identify metrics to assess impact of AI augmentation
- Join existing teams to educate, experiment and learn together
- Embed new AI-accelerated approaches to the SDLC
- Support internal champions for self-sustaining impact

Benefits

- Fast and effective AI-accelerated software delivery
- Faster iteration and reduced time-to-market
- Improved quality and safety
- Scalable approach supported by metrics
- Increased maturity with AI tooling across the organisation
- Increased ownership of AI capabilities
- Improved productivity in targeted workflows
- Greater confidence to tackle complex problems

Interested in partnering with Scott Logic?

At Scott Logic, we love difficult. Our UK-based permanently employed consultants collaborate with some of the world's biggest organisations, providing a pragmatic approach to designing, developing and supporting cloud services that deliver measurable value.
