

Cloud Migration Planning

About Scott Logic

At Scott Logic, we build user-focused software that transforms the performance of our public and private sector clients. From citizen-centred service design to digital transformation projects, our consultants combine innovation, experience and pragmatism to deliver measurable results with every project.

Our onshore, UK delivery model allows us to attract and retain highly skilled technologists, all of whom are permanent employees, ensuring our clients receive the highest quality of service.

Our clients

Over the last 20 years and more, Scott Logic has built a strong reputation as the partner of choice for many clients across the Public Sector, as well as financial services, retail banking, healthcare, private equity, and the energy sector, including:

Our cloud services

Scott Logic offers consulting services across a broad range of capabilities, including:

-  **AI Accelerator**
-  **Architecture, Migration and Platform Engineering for Cloud**
-  **API Platform**
-  **Service Delivery for Cloud**
-  **Service Design for Cloud**
-  **Cloud Sustainability**
-  **Legacy Modernisation**

Working with Scott Logic

Scott Logic employs only permanent, UK-based technologists who share and embody our guiding values of passion, respect, excellence, collaboration and professionalism. In this way, we ensure that you, as our client, receive the highest quality of service from genuine teams. All of our engagements have Principal-level oversight and Director-level sponsorship, providing clear lines of communication and optimal collaboration. This means we build long-term, enduring partnerships, which drive value and enable our clients to transform their businesses.

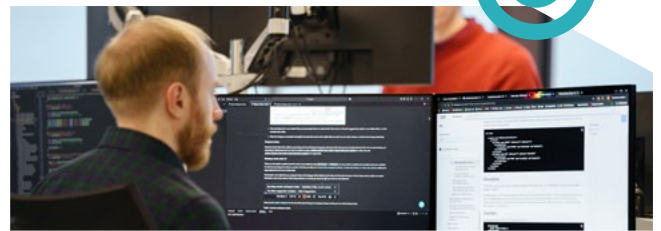

Cloud Migration Planning

Our vendor-agnostic consultants help you choose the right private, public, or hybrid solution. We take a holistic view of your environment and future goals, shaping a migration approach that balances security, scalability, and cost efficiency. Our phased delivery model reduces risk, accelerates adoption and provides a resilient, cloud-native operating model.

Features

- Stakeholder engagement to determine the overall vision and success measures
- Analysis of existing business cases, services, infrastructure, dependencies and data
- Analysis of existing cloud capabilities, skills and knowledge
- Creation of cloud strategy and roadmaps aligned to business priorities
- Practical and pragmatic advice from experienced architects and engineers
- Cost-effective migration path which considers cost optimisations and sustainability
- Alignment with Enterprise Architecture frameworks such as TOGAF
- Thought leadership from AWS and Azure certified consultants

Benefits

- Minimised risk through collaborative planning of phased migration
- Vision, benefits and measurable goals clearly aligned
- Experience and knowledge navigating the complex landscape of cloud technologies
- Independent and vendor-agnostic advice from experienced consultants
- Iterative, collaborative approach that empowers stakeholders
- Pragmatic and adaptable project governance based on lean, agile mindset
- Reduced delivery risk, believable progress and increased user feedback cycles
- Alignment with cloud provider Cloud Adoption Frameworks and best practices
- Alignment with cloud provider Well-Architected Frameworks
- Delivery of cost effective, scalable cloud solutions

Interested in partnering with Scott Logic?

At Scott Logic, we love difficult. Our UK-based permanently employed consultants collaborate with some of the world's biggest organisations, providing a pragmatic approach to designing, developing and supporting cloud services that deliver measurable value.
