Scott Logic

Cloud Setup and Migration Services

About Scott Logic

At Scott Logic, we build user-focused software that transforms the performance of our public and private sector clients. From citizen-centred service design to digital transformation projects, our consultants combine innovation, experience and pragmatism to deliver measurable results with every project.

Our onshore, UK delivery model allows us to attract and retain highly skilled technologists, all of whom are permanent employees, ensuring our clients receive the highest quality of service.

Our cloud services

Scott Logic offers consulting services across a broad range of capabilities, including:

- AI Accelerator
- Architecture, Migration and Platform Engineering for Cloud
- API Platform
- Service Delivery for Cloud
- Service Design for Cloud
- Cloud Sustainability
- Legacy Modernisation

Working with Scott Logic

Scott Logic employs only permanent, UK-based technologists who share and embody our guiding values of passion, respect, excellence, collaboration and professionalism. In this way, we ensure that you, as our client, receive the highest quality of service from genuine teams. All of our engagements have Principal-level oversight and Director-level sponsorship, providing clear lines of communication and optimal collaboration. This means we build long-term, enduring partnerships, which drive value and enable our clients to transform their businesses.

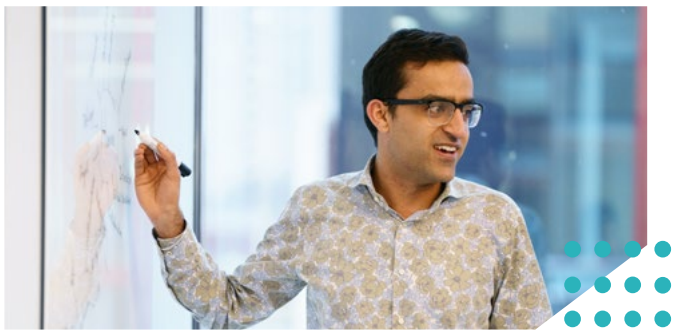
Scott Logic

Cloud Setup & Migration Services

Our Legacy Modernisation Services consolidate and migrate complex legacy workloads including business processes, critical applications, and the underlying data into secure, modern platforms with minimal disruption. We work with you to ensure a successful cloud migration which aligns with your business priorities, cloud migration strategy and delivery roadmaps.

Features

- Assessment of existing systems, processes, infrastructure and data
- Thought leadership from AWS and Azure certified consultants
- Execution of cloud transformation activities aligned with wider strategy
- Modernisation, re-platforming, optimisation and cloud migration
- Clear articulation of modernisation approach and plan
- Services designed, built and optimised utilising cloud services
- Migration of existing applications into efficient cloud-based solutions
- Migration of data to secure, scalable and compliant cloud storage
- Expert support during transition from legacy systems



Benefits

- Modernisation and cloud adoption enables increased future digital enablement
- Long term cost gains driven by reduction of operational costs
- Reduction in business continuity risks
- Improved service levels: performance, security, scalability, reliability and availability
- Reduction of complexity across organisation technology and processes
- Introduction of secure cloud services
- Improved time to market
- Improved testability of services enables rapid and safe changes
- Alignment with cloud provider Cloud Adoption Frameworks and best practices
- Alignment with cloud provider Well-Architected Frameworks
