About **NDL**

NDL has over 45 years' experience in supporting the UK public sector to improve services. Our focus is simple: modernise processes and expand capabilities while making the most of what's already in place.

By connecting systems, automating routine tasks and digitising front-end services, we help organisations work more efficiently and deliver a smoother experience for staff and the public.

Backed by real project experience and guided by our customer community, we continue to invest in what works — bringing innovation, stability and trusted support as an independent UK SME dedicated to solving real public sector challenges.

NDL | Evolve

Evolve is our all-in-one digital transformation platform, built to help public sector organisations modernise the way they work. By bringing together mobile apps, eForms, workflows, robotic process automation (RPA), APIs and web services into a single, integrated platform, Evolve gives teams in healthcare, local government, housing, policing, and higher education the tools they need to build smarter digital services – without having to replace the systems they already rely on.

Components	Evolve	Evolve Plus	Evolve Enterprise	Shared Services*
Storyboards	100	500	1,000	5,000
Forms & Apps	50	250	500	2,500
Devices	150	500	5,000	25,000
Attended Bots	0	50	250	1,250
Unattended Bots	3	6	10	50
Connectors	50	500	1,000	5,000
Live Servers	1	2	2	8
	£49,500	£85,000	£137,000	£411,000

*4 organisations maximum

Tier-based upgrades

We all change over time. Evolve can change with you. Our Evolve packages have been carefully designed for the public sector, but we know that no two organisations are the same. Our tiered subscription model lets you upgrade at any time, so you can take advantage of increased capacity and functionality whenever you need it.

Additional add-ons

Happy with your chosen tier, just want to boost a specific component? Our add-ons make it easy to scale up your transformations without paying for more than you need.

Digitise

Prioritising rolling out apps at scale? Our Digitise module add-ons let you increase your number of devices to suit your needs.

Device quantity	Price
100	£7,500
250	£12,500
500	£20,000
1,000	£30,000

Automate

Need more hands on deck? Upgrade your Automate module with both attended and unattended bots.

Unattended bot quantity	Price
5	£15,000
10	£25,000
25	£45,000
50	£62,500

Attended bot quantity	Price
100	£22,500
250	£30,000
500	£55,000
1,000	£90,000

Live server

Add an additional live server to any Evolve tier for **£25,000**. This additional instance provides load balancing and hardware resilience to your existing Evolve licence (please note that it doesn't include any additional components).

The purchase of upgrades and add-ons are priced annually. You can align upgrade and add-on purchases with an existing Evolve licence. In this case, the cost of the upgrade or add on will be pro rata monthly (minimum 12-month commitment).

NDL | Deliver

Our dedicated team of consultants are experts in building, configuring and deploying our technologies across a range of public sector environments. Over the past four decades, we've supported hundreds of members across the NDL Community - we understand how to work effectively, responsibly and in unison with public sector teams.

Our day rate is **£1,200** per day. For block purchases of more than 50 days, the day rate is **£1,000**. Our professional services can be used for project work, on-site support, bespoke training and mentorships. Our Digital Transformation Consultants and Project Manager are on hand to scope your requirements and book any time you require.

Commercial terms and assumptions

- All prices stated are based on an annual subscription and paid in advance.
- Licences are only granted to, and used by, an individual Authority, Association, Trust or similar as a single 'legal entity'.
- Hosting can be in public cloud or private cloud spaces via Microsoft Azure or AWS. On premise and hybrid options are also available.
- All prices include product updates (as and when available) as well as a comprehensive range of support services during the life of the contract.
- The minimum contract term is one year but can be fixed for multiple years to suit the needs of the customer.
- Payment terms are 30 days from date of invoice.
- All prices exclude VAT at the prevailing rate.
- Software and Professional Services are invoiced on order.
- Services prices include reasonable out of pocket expenses.
- Please refer to the Service Description for full details including requirements, hosting requirements and service level response times.
