

SERVICE OVERVIEW

Roq provides the testing expertise to assure the accuracy of data. Roq's specialist skills ensure that data is in the correct format, structure and that it is presented within the parameters required including SQL, MYSQL, Server, Assembly, etc. We also test the database to ensure it's responsive when placed under stress.

SERVICE FEATURES

- Production of a data approach tailored to requirements
- Define clear objectives for the testing with key stakeholders
- Management of the key dependencies including environments and databases
- Transparent reporting of progress during preparation and execution
- Production of detailed plans and schedules for data testing
- Expertise in designing automated reconciliation routines
- Ensure data defects are managed and resolved appropriately
- Collaborate effectively with internal teams and third parties involved
- Effective management of the closure of data testing

SERVICE BENEFITS

- The risks associated with data are effectively mitigated
- Leverage the experience of previous data testing engagements
- All parties have a clear understanding of test approach
- Quality gate approach for stakeholder sign-off for data
- Clear dependency management for data testing
- Solutions work as designed with data
- Key stakeholders always understand the status of data testing
- Automated reconciliation assures data quality and saves time and cost
- Verification of data rules and adherence to security profiles
- Data process and tools are efficient and effective

ABOUT ROQ

Roq is an independent, outcomes focused Quality Engineering consultancy. We give organisations the confidence to implement complex technology change through Quality Engineering, delivered by our brilliant people. By leveraging our comprehensive solutions, built upon our Q-Suite, a comprehensive collection of assets, AI and automation frameworks, and a consistent way of working, we keep focus on what truly matters to you.

Whether you are rolling out new platforms, modernising legacy technology, or delivering large-scale upgrades, we help you move at pace, without sacrificing quality. Partnering with us leaves your organisation in a better place for the future.

Our Quality Engineering solutions are tailored to build confidence into your technology delivery, no matter your sector. With proven expertise, innovative approaches, and deep industry insights, we ensure your technology consistently delivers exceptional performance and outstanding user experiences.

OUR VALUES

Straight Talking: We say it how it is, using open, honest and direct communication. You'll always have full visibility on progress, with clear, candid insights and independent guidance, so you are empowered to make informed decisions.

Excellence: We leverage our expertise to drive efficiency and deliver the best outcomes, maximising value for you at every step.

Passionate: We care about what we do. We're motivated by proactively identifying risks throughout the lifecycle, to help you prevent issues before they arise and stopping them from recurring.

Commitment: We see it through, and we deliver on our promises whilst surpassing expectations. You can be confident that we're committed to making measurable improvements that leave a lasting impact. We'll work closely with your team and implement sustainable practices to ensure long-term success.
