

SERVICE OVERVIEW

Roq's Robotic Process Automation and Agentic AI testing services are suitable for solutions that leverage RPA or Agentic AI to automate business processes. Roq's skilled engineers utilise frameworks and approaches to ensure solutions are technically robust and provide accurate, explainable and ethical outcomes (especially important for advanced AI solutions).

SERVICE FEATURES

- Full service, from initial scoping to delivery and ongoing support
- Technically skilled and experienced quality engineers
- Ensures RPA and AI are efficiently coded
- Ensures the RPA flows and AI outcomes meet business requirements
- Pre-built test automation frameworks or bespoke automation frameworks
- Implementation of API test automation across RPA protocols
- GUI test automation across RPA platforms and AI interfaces
- Test data and test environment configuration to suit
- Integrate continuous performance testing into delivery pipeline
- Exploratory ethical testing to complement automated testing

SERVICE BENEFITS

- Confidence that RPA and Agentic AI are providing business value
- Unleash the benefits of effective RPA and Agentic AI solutions
- Independent validation of approach and technical quality
- Ensure AI delivers appropriate, ethical outcome
- Reduces the risk of RPA and AI security issues
- Increase speed/regularity of releases thanks to confidence in solutions
- Reduce issues in live, protecting business reputation
- Enables faster testing through robust test automation
- Performance is engineered into the code
- AI and RPA experts provide actionable advice to make improvements

ABOUT ROQ

Roq is an independent, outcomes focused Quality Engineering consultancy. We give organisations the confidence to implement complex technology change through Quality Engineering, delivered by our brilliant people. By leveraging our comprehensive solutions, built upon our Q-Suite, a comprehensive collection of assets, AI and automation frameworks, and a consistent way of working, we keep focus on what truly matters to you.

Whether you are rolling out new platforms, modernising legacy technology, or delivering large-scale upgrades, we help you move at pace, without sacrificing quality. Partnering with us leaves your organisation in a better place for the future.

Our Quality Engineering solutions are tailored to build confidence into your technology delivery, no matter your sector. With proven expertise, innovative approaches, and deep industry insights, we ensure your technology consistently delivers exceptional performance and outstanding user experiences.

OUR VALUES

Straight Talking: We say it how it is, using open, honest and direct communication. You'll always have full visibility on progress, with clear, candid insights and independent guidance, so you are empowered to make informed decisions.

Excellence: We leverage our expertise to drive efficiency and deliver the best outcomes, maximising value for you at every step.

Passionate: We care about what we do. We're motivated by proactively identifying risks throughout the lifecycle, to help you prevent issues before they arise and stopping them from recurring.

Commitment: We see it through, and we deliver on our promises whilst surpassing expectations. You can be confident that we're committed to making measurable improvements that leave a lasting impact. We'll work closely with your team and implement sustainable practices to ensure long-term success.
