

SERVICE OVERVIEW

Roq provides the testing expertise to ensure the successful migration of applications and services onto cloud hosted environments. We define and deliver an approach to testing the migration from on-premise to private or public cloud hosted environments (GCP, AWS, Azure or similar). This includes testing the migration between cloud providers.

SERVICE FEATURES

- Defines a clear strategy/approach tailored to the specific challenges/risk
- Detailed planning of tasks and milestones building on strategy
- Provides an independent view of the quality of the solution/service
- Strong collaboration with all third parties in the client's interest
- Covers testing of IaaS, PaaS and SaaS cloud solutions
- Transparent reporting of progress throughout preparation and execution
- Consultants with sound understanding of environment, data and tools required
- Provides testing expertise to complement the cloud providers domain knowledge
- Testing specialists in areas including automation, performance, UAT and OAT
- Manages the closure of the cloud migration testing phases effectively

SERVICE BENEFITS

- Testing mitigates the key risks of cloud migration
- Testing is aligned to the overall project method
- Stakeholders have a clear view of status of testing throughout
- Test automation utilised to accelerate test activities
- Key dependencies for cloud testing managed effectively
- Test tools configured appropriately in line with the approach
- Specialist cloud testing expertise
- Reusable assets delivered including performance regression packs
- Support smooth transition of solution onto cloud hosted platforms
- Stakeholders can make informed decisions about go-live readiness

ABOUT ROQ

Roq is an independent, outcomes focused Quality Engineering consultancy. We give organisations the confidence to implement complex technology change through Quality Engineering, delivered by our brilliant people. By leveraging our comprehensive solutions, built upon our Q-Suite, a comprehensive collection of assets, AI and automation frameworks, and a consistent way of working, we keep focus on what truly matters to you.

Whether you are rolling out new platforms, modernising legacy technology, or delivering large-scale upgrades, we help you move at pace, without sacrificing quality. Partnering with us leaves your organisation in a better place for the future.

Our Quality Engineering solutions are tailored to build confidence into your technology delivery, no matter your sector. With proven expertise, innovative approaches, and deep industry insights, we ensure your technology consistently delivers exceptional performance and outstanding user experiences.

OUR VALUES

Straight Talking: We say it how it is, using open, honest and direct communication. You'll always have full visibility on progress, with clear, candid insights and independent guidance, so you are empowered to make informed decisions.

Excellence: We leverage our expertise to drive efficiency and deliver the best outcomes, maximising value for you at every step.

Passionate: We care about what we do. We're motivated by proactively identifying risks throughout the lifecycle, to help you prevent issues before they arise and stopping them from recurring.

Commitment: We see it through, and we deliver on our promises whilst surpassing expectations. You can be confident that we're committed to making measurable improvements that leave a lasting impact. We'll work closely with your team and implement sustainable practices to ensure long-term success.
