

SERVICE OVERVIEW

Roq mitigates the risks associated with the implementation or migration of Identity Access Management (IAM/IDAM) systems through a tailored strategy and delivery approach, specific to your challenges. Roq has extensive experience testing MIM, Saviynt, Azure-Active-Directory, CyberArk, Auth0 and interfaces to the wider estate and provides testing services across these strategic programmes.

SERVICE FEATURES

- Define test strategy/approach tailored to circumstances and associated risk
- Develop achievable plans and schedules for IAM/IDAM testing
- Focus on integration into wider landscape and devices across the estate
- Focus on Operational Risk and Operational Acceptance
- Tailored Test Approach to mitigate against security risks and exposures
- Work with key stakeholders to ensure test coverage is appropriate
- Provide transparent reporting for key stakeholders
- Select and configure testing tools and integrating into development tools
- Test automation first approach for accelerated testing/increased coverage
- Ensure defects are appropriately managed and resolved

SERVICE BENEFITS

- Leverage accelerators from working on major AM/IDAM implementations and migrations
- Increased Stakeholder confidence through rigorous IAM/IDAM test approach
- Testing aligned to SDLC method associated with project
- Test approach aligned to wider operational risks, not just technology
- Resourcing required to deliver IAM/IDAM testing clearly identified
- Leverage pre-built test automation frameworks and approaches
- Reusable assets (regression packs and performance packs) reduce TCO
- Each testing phase/type mitigates the risk it's designed to address
- Stakeholders understand the exact situation thanks to clear test reporting
- Provides an independent view due to ROQ's focus on testing/quality

ABOUT ROQ

Roq is an independent, outcomes focused Quality Engineering consultancy. We give organisations the confidence to implement complex technology change through Quality Engineering, delivered by our brilliant people. By leveraging our comprehensive solutions, built upon our Q-Suite, a comprehensive collection of assets, AI and automation frameworks, and a consistent way of working, we keep focus on what truly matters to you.

Whether you are rolling out new platforms, modernising legacy technology, or delivering large-scale upgrades, we help you move at pace, without sacrificing quality. Partnering with us leaves your organisation in a better place for the future.

Our Quality Engineering solutions are tailored to build confidence into your technology delivery, no matter your sector. With proven expertise, innovative approaches, and deep industry insights, we ensure your technology consistently delivers exceptional performance and outstanding user experiences.

OUR VALUES

Straight Talking: We say it how it is, using open, honest and direct communication. You'll always have full visibility on progress, with clear, candid insights and independent guidance, so you are empowered to make informed decisions.

Excellence: We leverage our expertise to drive efficiency and deliver the best outcomes, maximising value for you at every step.

Passionate: We care about what we do. We're motivated by proactively identifying risks throughout the lifecycle, to help you prevent issues before they arise and stopping them from recurring.

Commitment: We see it through, and we deliver on our promises whilst surpassing expectations. You can be confident that we're committed to making measurable improvements that leave a lasting impact. We'll work closely with your team and implement sustainable practices to ensure long-term success.
