

SERVICE OVERVIEW

Roq's Test Management Service provides assurance of all testing, ensuring that it is delivered in line with industry best practice. Our consultants assure test strategy, planning, preparation, execution and exit deliverables, ensuring that testing conducted by all teams and third parties is efficient, effective and aligned to the risk appetite.

SERVICE FEATURES

- Management of testing conducted by internal team and third parties
- Effective management of the test planning, estimation and delivery cycle
- Provides reports giving insight into progress, capability and improvement opportunities
- Test RAID management
- Supports the development and adoption of test strategies
- Assurance across all test phases and types including functional/nonfunctional
- Effective collaboration with all third parties and teams delivering testing
- Test specialists support areas including automation, performance, environments and OAT
- Coverage of all methodologies including Waterfall, Agile and DevOps/Continuous testing
- Provides coverage of specific projects/programmes or organisation-wide

SERVICE BENEFITS

- Honest, single view of project status, for informed decisions
- Independent, expert challenge gets the best from your third parties
- Allows clients to focus on their jobs, not resolve issues
- Protect quality, timelines and budgets
- Testing capability becomes more cost effective
- Evidence of testing reflects the rigour required and is auditable
- Ensure supplier relationships deliver desired benefits
- A consistent approach to testing in line with strategy is adopted
- Test processes become repeatable and re-usable assets are produced
- Provide drive for continuous improvement in the testing capability

ABOUT ROQ

Roq is an independent, outcomes focused Quality Engineering consultancy. We give organisations the confidence to implement complex technology change through Quality Engineering, delivered by our brilliant people. By leveraging our comprehensive solutions, built upon our Q-Suite, a comprehensive collection of assets, AI and automation frameworks, and a consistent way of working, we keep focus on what truly matters to you.

Whether you are rolling out new platforms, modernising legacy technology, or delivering large-scale upgrades, we help you move at pace, without sacrificing quality. Partnering with us leaves your organisation in a better place for the future.

Our Quality Engineering solutions are tailored to build confidence into your technology delivery, no matter your sector. With proven expertise, innovative approaches, and deep industry insights, we ensure your technology consistently delivers exceptional performance and outstanding user experiences.

OUR VALUES

Straight Talking: We say it how it is, using open, honest and direct communication. You'll always have full visibility on progress, with clear, candid insights and independent guidance, so you are empowered to make informed decisions.

Excellence: We leverage our expertise to drive efficiency and deliver the best outcomes, maximising value for you at every step.

Passionate: We care about what we do. We're motivated by proactively identifying risks throughout the lifecycle, to help you prevent issues before they arise and stopping them from recurring.

Commitment: We see it through, and we deliver on our promises whilst surpassing expectations. You can be confident that we're committed to making measurable improvements that leave a lasting impact. We'll work closely with your team and implement sustainable practices to ensure long-term success.
