

SERVICE OVERVIEW

Roq offers test automation services, ranging from strategic consultancy to design and development of test automation solutions. Services are delivered using pre-built frameworks or commercial products to support functional & regression testing. Roq supports Continuous Integration (CI) and Continuous Delivery (CD) pipelines and API, GUI and integration layer testing.

SERVICE FEATURES

- Test automation strategy and design aligned to business outcomes
- Test automation tool assessment & selection including CI/CD tools
- Utilising and enhancing existing automation frameworks where possible
- Pre-built test automation frameworks in Java/C# for rapid deployment
- Test case scripting following industry best practices
- API test automation experience across a range of protocols
- GUI test automation experience on a range of user interfaces
- End-to-end (E2E) test automation
- Aligned to project methodology; Waterfall, V-Model, Agile and DevOps
- Iterative approach – quickly delivering usable test automation assets

SERVICE BENEFITS

- Coverage, speed – 12000-tests in 25-days to 19000-tests in 11-hours
- Reduce manual testing effort – 70% reduction achieved for clients
- Save thousands of pounds in people-hours and licence costs
- Feedback on software quality delivered in hours, not weeks
- Increase delivery of projects, organisational and IT change
- Client has ownership of the automated solution
- Impartial expert advice choosing the appropriate frameworks/tooling
- Re-usability of test automation framework components keeps costs low
- Rapid deployment of pre-built automation frameworks adds value quickly
- Allows testers to focus on user experience and exploratory testing

ABOUT ROQ

Roq is an independent, outcomes focused Quality Engineering consultancy. We give organisations the confidence to implement complex technology change through Quality Engineering, delivered by our brilliant people. By leveraging our comprehensive solutions, built upon our Q-Suite, a comprehensive collection of assets, AI and automation frameworks, and a consistent way of working, we keep focus on what truly matters to you.

Whether you are rolling out new platforms, modernising legacy technology, or delivering large-scale upgrades, we help you move at pace, without sacrificing quality. Partnering with us leaves your organisation in a better place for the future.

Our Quality Engineering solutions are tailored to build confidence into your technology delivery, no matter your sector. With proven expertise, innovative approaches, and deep industry insights, we ensure your technology consistently delivers exceptional performance and outstanding user experiences.

OUR VALUES

Straight Talking: We say it how it is, using open, honest and direct communication. You'll always have full visibility on progress, with clear, candid insights and independent guidance, so you are empowered to make informed decisions.

Excellence: We leverage our expertise to drive efficiency and deliver the best outcomes, maximising value for you at every step.

Passionate: We care about what we do. We're motivated by proactively identifying risks throughout the lifecycle, to help you prevent issues before they arise and stopping them from recurring.

Commitment: We see it through, and we deliver on our promises whilst surpassing expectations. You can be confident that we're committed to making measurable improvements that leave a lasting impact. We'll work closely with your team and implement sustainable practices to ensure long-term success.
