1 About Vidatum

We have built a strong reputation for developing innovative and user-friendly software solutions specifically designed to serve the research functions at universities and research-centric organizations. Our team of experienced professionals possesses a wealth of knowledge and expertise in this domain, enabling us to provide solutions that meet the specific needs and requirements of Higher Education Institutions.

We are well-established in the UK, Ireland, Europe, and Australia. Vidatum offers a modern, mobile-enabled system which uniquely covers the entire research management process in the market. From project inception right through to the publication stage, our system has you covered. Vidatum addresses primary requirements out of the box with significant scope for customisation to meet exact specifications. A full description of our offerings and modules is included in our Service Definition Document.

1.1 Modules available under Vidatum Academic

We provide the following modules under Vidatum Academic; the modular design of our solution allows for implementing the functionality, as needed.

Vidatum Research (CRIS - including Profiles + outputs + Impact)

Vidatum Portal (optional Add-on to Vidatum Research)

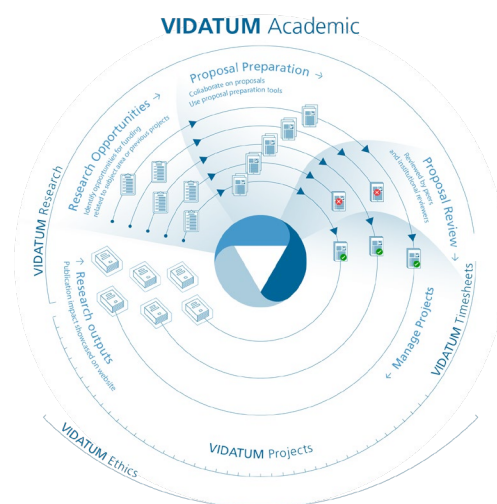

Vidatum Projects (Pre- award + Post award + Contracts)

Vidatum Timesheets

Vidatum Ethics

Vidatum Export Control

Vidatum Reporting (optional Add-on to any module)

2 Pricing

2.1 Pricing Model

Vidatum supplies the software on a SaaS service model with a one-time implementation/onboarding fee. Vidatum will provide the Research software licensed on a subscription basis that is centrally hosted and exclusive to the institution. The software code is hosted and managed by Vidatum and configurable to specific requirements.

We charge an annual fee for the license, hosting, and support. The annual license fee is reduced in the first year of subscribing to take into account the implementation period.

2.1.1 What is included in the fees?

One-off Implementation / On-boarding	- Institutional license - Implementation design consultancy - Project management - Configuration of the system - Standard integration points needed per module - Training for core project team (TOT)
Annual Fees	- Provision of 3 independent hosted environments (DEV/Training + UAT + LIVE) - Data backups, business continuity and disaster recovery services - Ongoing support services - Maintenance patches - Software upgrades (optional) - Off-boarding – if needed

2.2 Software Pricing

Our pricing model takes into account the man-days needed for configuring each module for the implementation/onboarding cost. Our annual charges are based on tiers for the number of users of the system.

On-boarding Charges	Research	Portal **	Projects	Timesheets	Ethics	Export Control	Reporting
License	£30,900	£20,600	£30,900	£20,600	£20,600	£10,300	NA
Implementation / on boarding	£67,000	£20,600	£61,800	£ 46,350	£ 51,500	£ 30,900	£ 20,600

SaaS Annual Charges	1 Module	2 Modules	3 Modules	4 Modules +
Annual (1-500)	£28,840	£34,608	£41,529	£49,835
Annual (501-2500)	£39,140	£46,968	£56,361	£67,633
Annual (2500+)	£49,440	£59,328	£71,193	£85,432

** As the system is modular, discounts will be offered if modules are implemented simultaneously.*

*** To implement the Vidatum Portal, Vidatum Research must first be implemented.*

2.3 Additional optional services

The following are optional services and will be charged based on our daily rates:

- Additional integration points not needed for the functionality of the module
- Migration of legacy data
- Custom report building
- Additional training apart from the training offered in the implementation

Resource Type	Daily Rate
<i>Project Manager</i>	£ 1,200
<i>Project Lead</i>	£ 1,100
<i>Business Analyst</i>	£ 1,000
<i>Developer</i>	£ 900
<i>Training specialist</i>	£ 1,100
<i>Testing specialist</i>	£ 900
