

## RapidDeploy SaaS Products, Implementation Services, and Equipment/Hardware

| SKU         | Product Name                                            | Type                    | Brief Description                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Unit of Measure         | Monthly Price - GDP | Annual Price - GDP | Notes                                                                                                           |
|-------------|---------------------------------------------------------|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|---------------------|--------------------|-----------------------------------------------------------------------------------------------------------------|
| RPD-A-001   | RapidDeploy Eclipse Analytics                           | Software/SaaS           | RapidDeploy Eclipse Analytics - 9-1-1 ECC/PSAP Analytics for the analysis and reporting of PSAP call performance, benchmarking and statistics. (Annual price per authorized 9-1-1 Call Taking Position)                                                                                                                                                                                                                                                           | Per User                | £ 149.14            | £ 1,789.68         |                                                                                                                 |
| RPD-A-004   | RapidDeploy Radius Mapping                              | Software/SaaS           | RapidDeploy Radius Mapping - 9-1-1 ECC/PSAP Mapping provides location of 9-1-1 calls plotted on authoritative GIS data displaying ALI and supplemental 9-1-1 location, vehicle telematics, 2-way SMS text-from-911, RapidVideo, and other enhanced features. (Annual price per authorized concurrent user)                                                                                                                                                        | Per Concurrent User     | £ 335.57            | £ 4,026.78         |                                                                                                                 |
| RPD-AC-001  | RapidDeploy NG9-1-1 Bundle                              | Software/SaaS           | RapidDeploy NG9-1-1 Bundle - 9-1-1 Ecc/PSAP Mapping provides location of 9-1-1 calls plotted on authoritative GIS data displaying ALI and supplemental 9-1-1 location, vehicle telematics, 2-way SMS text-from-911, RapidVideo, and other enhanced features. 9-1-1 ECC/PSAP Analytics for the analysis and reporting of PSAP call performance, benchmarking and statistics. (Annual price per authorized 9-1-1 Call Taking Position)                              | Per User                | £ 447.42            | £ 5,369.04         |                                                                                                                 |
| RPD-B-001   | RapidDeploy Eclipse Analytics to NG9-1-1 Bundle Upgrade | Software/SaaS           | RapidDeploy Eclipse Analytics to NG9-1-1 Bundle Upgrade                                                                                                                                                                                                                                                                                                                                                                                                           | Per User                | £ 298.28            | £ 3,579.36         |                                                                                                                 |
| RPD-B-004   | RapidDeploy Radius Mapping to NG9-1-1 Bundle Upgrade    | Software/SaaS           | RapidDeploy Radius Mapping to NG9-1-1 Bundle Upgrade                                                                                                                                                                                                                                                                                                                                                                                                              | Per User                | £ 111.86            | £ 1,342.26         |                                                                                                                 |
| RPD-LM-001  | RapidDeploy Lightning Mobile App                        | Software/SaaS           | RapidDeploy Lightning Mobile App - Mobile Application to visualize Radius Data for field responders. Licensed per device based on the total number of First Responders in an Agency. Requires Radius license. (Annual price per First Responder)                                                                                                                                                                                                                  | Per Mobile Device       | £ 11.19             | £ 134.23           |                                                                                                                 |
| RPD-RFA-001 | RapidDeploy Radius Field Access Upgrade                 | Software/SaaS           | RapidDeploy Radius Field Accesses Upgrade - Upgrade an existing Radius per seat license to extend Radius data to up to 75 Mobile First Responders per Radius license. (Annual price per authorized 9-1-1 Call Taking Position)                                                                                                                                                                                                                                    | Per User                | £ 559.28            | £ 6,711.30         |                                                                                                                 |
| RPD-RF-002  | RapidDeploy Radius FIRST                                | Software/SaaS           | RapidDeploy Radius FIRST - Radius Mapping and Lightning Mobile Access. Provides one license per authorized call taking position and up to 75 Mobile First Responder licenses. (Annual price per authorized 9-1-1 Call Taking Position)                                                                                                                                                                                                                            | Per User                | £ 894.84            | £ 10,738.08        |                                                                                                                 |
| RDI-RD-001  | RapidDeploy Implementation Services - Hourly            | Implementation Services | RapidDeploy Implementation Services - Hourly - Hourly rate for Implementation, Project Management, Training and Configuration of RapidDeploy Products.                                                                                                                                                                                                                                                                                                            | Per Hour                | £ 167.78            | £ 167.78           |                                                                                                                 |
| RDI-RD-101  | RapidDeploy Implementation Services - 1 Product         | Implementation Services | RapidDeploy Implementation Services - 1 Product - Implementation, Project Management, Training and Configuration of RapidDeploy Products, billed on a milestone basis per statement of work (SOW) for a single product per site. (One-time fee)                                                                                                                                                                                                                   | Per Site, One-time Cost | £ 7,457.00          | £ 7,457.00         |                                                                                                                 |
| RDI-RD-201  | RapidDeploy Implementation Services - Bundled Product   | Implementation Services | RapidDeploy Implementation Services - Bundled Product - Implementation, Project Management, Training and Configuration of RapidDeploy Products, billed on a milestone basis per statement of work (SOW) for a bundled product per site. (One-time fee)                                                                                                                                                                                                            | Per Site, One-time Cost | £ 11,185.50         | £ 11,185.50        |                                                                                                                 |
| RDE-RD-001  | RapidDeploy Emergency Data Gateway                      | Equipment               | RapidDeploy Emergency Data Gateway - Provisioning, Peripherals/Cabling and Shipping per device. (One-time fee)                                                                                                                                                                                                                                                                                                                                                    | Per Device              | £ 1,864.25          | £ 1,864.25         |                                                                                                                 |
| RPD-VAR-002 | 911 Assist with Radius (Total Positions)                | Software/SaaS           | 911 Assist with Radius - Moto 911 Assist Bundled with Radius Mapping (Total)                                                                                                                                                                                                                                                                                                                                                                                      | Per User                | £ 136.46            | £ 1,637.56         |                                                                                                                 |
| RPD-VAR-004 | 911 Assist with Radius (Concurrent Positions)           | Software/SaaS           | 911 Assist with Radius - Moto 911 Assist Bundled with Radius Mapping (Concurrent)                                                                                                                                                                                                                                                                                                                                                                                 | Per User                | £ 272.93            | £ 3,275.11         |                                                                                                                 |
| RPD-RPL-101 | Radius Plus User Fee                                    | Software/SaaS           | Radius Plus enhances the telecommunicator's experience by automatically gathering, sorting and surfacing information from the live 9-1-1 call to help the telecommunicator make the most informed decisions. Radius is the mapping solution which delivers the Assist+ capabilities, providing a streamlined and integrated approach to translation and transcription services.
