Moodle Overview

At SkillSet, we create reliable, easy-to-use learning platforms built around Moodle, the world's most widely used open-source learning management system.

A dedicated Moodle instance gives you a platform that is entirely your own – branded to your identity and configured to support the way your users learn. Whether you're introducing an LMS for the first time, migrating from another platform, or moving an existing Moodle site to a new provider, we support you through the process end to end.

Moodle is known for its flexibility. It can grow with your organisation, support complex learning structures, and adapt to a wide range of training formats, from eLearning and webinars to blended programmes.

With SkillSet, you benefit from a team of Moodle specialists who manage the technical side for you, keeping your platform stable, secure, and up to date. Every organisation works differently, so each Moodle site we deliver is shaped to fit. Whether you need a straightforward learning platform or a more customised, feature-rich environment, our hosting, maintenance, and support packages allow you to scale with confidence.

Project Services Pricing

The table below outlines typical implementation and configuration activities for Moodle platforms. Implementation is required for all projects. All other activities are optional or recommended based on your needs.

Effort estimates are indicative and delivery is charged on a time-and-materials basis at SkillSet's £575 per day. A 10% project management fee is applied to all projects, based on a day rate of £650. *All prices are exclusive of VAT.*

Element	Effort	Cost	Frequency/ Requirement
Implementation (configuration of live site, standard plugin install, basic roles and permissions, and branding)	3 days	£1,725	One-off/Required
Home and static pages	2 days	£1,150	One-off/ Recommended
Advanced roles and permissions	2 days	£1,150	One-off/ Recommended
Taxonomy and tagging setup	2 days	£1,150	One-off/ Recommended
Administrator training	0.5 days	£288	One-off/ Recommended
Fully managed service	6 days	£3,450	Annual/Optional
System integration	1-5 days	£575-£2,875	One-off/Optional
Multi-lingual configuration (per language)	1-2 days	£575-£1,150	One-off/Optional
Course imports (per 50 courses)	1 day	£575	One-off/Optional
Custom report	1 day	£575	One-off/Optional
Penetration or automated testing, code scanning	2 days	£1,150	One-off/Optional
Web Application Firewall (WAF)	N/A	£100-£500	Monthly/Optional

Maintenance Pricing

We offer hosting, maintenance, and support packages designed to suit organisations of different sizes and needs. Pricing is based on the size of the infrastructure required and the maintenance tier you choose, giving you a clear, predictable cost for your Moodle site.

No matter which option you select, you benefit from secure UK-based hosting, regular updates, and access to our Moodle specialists.

Pricing Bands (per month)

The estimated number of users shown in the table below is a guide only and helps us size of the infrastructure needed to run your Moodle site effectively.

All prices are exclusive of VAT.

Size	Est. No. Users	Essential	Standard	Premium
Small	<1,000	£300	£425	£600
Medium	<5,000	£500	£650	£850
Large	<10,000	£700	£875	£1,100
X Large	<20,000	£900	£1,100	£1,350
XX Large	<40,000	£1,150	£1,400	£1,850
XXX Large	<70,000	£1,600	£1,900	£2,500

What our clients say:

"SkillSet have been a dream to work with. Their project management is watertight, and their solution-focused helpfulness and flexibility has hugely contributed to a smooth and successful project delivery."

Maintenance Packages

The table below shows how our Essential, Standard, and Premium packages differ, helping you select the level of support, functionality, and integration that matches your organisation's needs.

All packages include UK-based AWS hosting, unlimited standard plugins, roles and permissions setup, continuous security patching and Moodle updates, 24/7 monitoring, daily and weekly backups with redundancy, SSL renewal, and a tested restoration process for peace of mind.

About SkillSet

SkillSet is a UK-based learning technology provider with more than 30 years' experience delivering learning solutions across the public and private sectors.

We are ISO 27001, ISO 9001, and Cyber Essentials Plus certified, demonstrating our commitment to information security and quality management. We are also an AWS Partner, ensuring our services are delivered securely and in line with recognised industry standards.

SkillSet works closely with clients to create engaging, accessible, and measurable learning experiences that meet compliance, safety, and professional development needs.

We strive to develop long-lasting partnerships – that's why we've worked with clients for more than 25 years. Our customer satisfaction consistently exceeds 90%, reflecting our commitment to quality, responsiveness, and long-term client partnerships.

What our clients say:

"The commitment shown by SkillSet to getting the project over the line, even when it turned out to be more complex than anticipated, was really appreciated and reinforced the reasons why we chose SkillSet as a long-term partner for this work. I really felt like there was a commitment that went beyond customer/supplier."

Our G-Cloud 15 Services

SkillSet provides a range of learning and technology services through the G-Cloud framework.

Learning and Development Consultancy Services – practical, experience-led consultancy to support learning strategy, discovery, and programme design.

Bespoke eLearning – custom-designed digital learning built around your goals, people, and real-world working practices.

Tailored Off-the-Shelf eLearning Courses – ready-made courses, covering compliance, health and safety, and business skills, with the flexibility to tailor content, branding, and scenarios to your organisation.

Moodle Learning Management System (LMS) Development, Hosting, Maintenance, and Optional Support – secure, scalable Moodle solutions configured and supported to fit your organisation and learners.

Custom Moodle Plugin Development – custom plugins and integrations that extend Moodle's functionality and support specific organisational needs.

Moodle Platform Performance and Security Audit – structured audits that provide clear insight into platform performance, configuration, and security, with prioritised recommendations.

Search our G-Cloud listings to explore our services and find out more.
