

MOATA GEOSPATIAL PRICING

Including Moata Inspect and Geospatial Portal

Q4 2025

Moata Geospatial Prices: Standard recommendation for clients

Principles: Group Solutions offer clients value. They drive efficiency, advance innovation, and boost collaboration. They also have a running cost. Therefore, Mott MacDonald’s business principle is to **commercialise this value by charging clients a monthly fee or rolling the fee into rates** where this is not possible. **Moata Inspect** is also available as an add on to Geospatial.

These are the **recommended fees** for **Moata Geospatial and Moata Inspect:**

Size	Internal	External	Inspect Add On
Small (< 10 users)	Free	Free	Free
Medium (10 – 99 users)	Free	£2,500 per month	£500 per month
Major (100+ users)	£2,500 per month	£3,500 per month	£1,000 per month

These are recommended prices and are based upon 'fair storage usage' which will be suitable for most projects (10 GB data storage, 350 GB file storage). In exceptional circumstances with large storage requirements, there will be additional costs.

See next slide for Geospatial Portal licence information.

For more details and information about multi-solution discounts contact Paul Beaumont.

Geospatial Portal and Esri technology Prices

There are **additional costs for users who require the use of Esri's technology in conjunction with Moata Geospatial**. All user accounts are invoiced by Esri on a pro rata basis until 14th May (renewal date).

- Following the process for all types of software, internal user accounts are recharged by IT for monthly active users with an account to divisional overheads. View information on the Service Catalogue.
- External users and joint ventures accounts are charged as shown in this table:

Hosted solution type	Annual subscriptions for ArcGIS Enterprise	USD / year	GBP / year	AUD / year
Moata Viewer	Viewer partner user type	\$234	£177	\$365
Moata Editor	Contributor partner user type	\$468	£355	\$730
Moata Field Worker	Mobile Worker	\$780	£595	\$1,230
Moata Professional	Creator partner user type for publishing	\$1,305	£995	\$2,050

Contact geospatialportal.support@mottmac.com for more information.

Conditions:

- Esri accounts can only be used in conjunction with Moata Products – **not sold as standalone Esri app access**.
- Bid information – more accounts can be bought during the contract; however, these must be purchased in **bundles of 5 user accounts at a time**. (This is due to the level of effort required to purchase accounts; buying single accounts at a time costs more than what their value is worth).
