

## WPC Coroners Pricing

WPC Coroners Case Management and Workflow Solution from WPC Software Ltd.

### Product Outline

WPC Coroners provides case management and workflow capabilities for Coroners' offices to manage casework.

To obtain a full cost for the solution, customers will need to select the relevant Licence band in section 1, and then add the fixed rate items under section 2. Customers can also select relevant optional items from section 3.

The licensing model for WPC Coroners is based on an unlimited number of users (this can include external staff to the Coroner's Office in order to refer cases). The overall licence cost is split into bands based on the overall number of cases per jurisdiction/authority, per annum. The range depends upon the service required, size of area, and components taken (e.g. authentication options). For collaborative procurements between multiple organisations, the prices are calculated by the combination of number of jurisdictions and the total number of cases (annually) within each one.

### Section 1 – WPC Coroners Pricing

| Annual number of cases from | Annual number of cases to | Monthly Cost    | Conditions                                                                       |
|-----------------------------|---------------------------|-----------------|----------------------------------------------------------------------------------|
| 0                           | 1000                      | £850 - £1,150   | 1. From the point of cancellation or non-payment the licence is no longer valid. |
| 1001                        | 2600                      | £900 - £1,300   | 1. From the point of cancellation or non-payment the licence is no longer valid. |
| 2601                        | 4400                      | £1,100 - £1,550 | 1. From the point of cancellation or non-payment the licence is no longer valid. |
| 4401                        | 8500                      | £1,300 - £1,750 | 1. From the point of cancellation or non-payment the licence is no longer valid. |
| 8501                        | Unlimited                 | POA             | 1. From the point of cancellation or non-payment the licence is no longer valid. |

### Section 2 – Fixed Rate Items

| Item                                        | Price                                         | Notes                                                                                                                                                                                                                                                                                               |
|---------------------------------------------|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>2.a. |                                                            |                |                                                                                                                                                                                                    |
|------------------------------------------------------------|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                            |                | The implementation package can be tweaked depending on customer requirements. It does not include Back Record Conversions from legacy systems, which can be quoted for using the daily rate below. |
| <b>2.b. Standard Cloud Software Managed Hosted Service</b> | £750 per month | This covers the default managed hosted service provided via Microsoft Azure and as defined in the Service Definition document.                                                                     |

### Section 3 – WPC Coroners Optional Items

| Item                                                                              | Price  | Notes                                                                                                                                                                                                                                            |                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------|--------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>3.a. Standard Daily Rate</b>                                                   | £1,100 | The standard daily rate applies to services in addition to the standard on-boarding outlined above. This can include data migration/back record conversion services from existing systems, additional training, and additional development work. |                                                                                                                                                                                                |
| <b>3.b. Additional Software Training Services</b>                                 | £1,100 | Per One Day Course. With a minimum of 5 and maximum of 10 attendees.                                                                                                                                                                             | Providing user and administrator training. Dependant on the number of attendees and requirements of the customer this can be held at WPC HQ or on-site. Price quoted excludes travel expenses. |
| <b>3.c. Address/Postcode Look-up utility – Prices start from £1,200 per annum</b> | £1,200 | The above price is for 13,500 lookups per annum.                                                                                                                                                                                                 |                                                                                                                                                                                                |

### Notes

1. For specific details of the standard package as part of our SaaS offering, please see the Service Definition. Alternative specifications, resiliency options, back-up processes and access methods are available in addition to or in place of the standard.
