>2500	>2500	POA	POA

Notes:

1. Annual Service Fees are based on a 3-year contract.
2. Managed Microsoft Defender XDR services above 2,500 users/devices are Priced on Application (POA).
3. Payment is provided annually in advance, with invoices payable within 30 days.
4. Pricing excludes VAT, which will be invoiced at the prevailing rate.
5. The Customer is responsible for all their Microsoft Defender platform licensing, maintenance, storage and subscription costs. Pricing above is for MTI-delivered Managed Microsoft Defender for Endpoint/Server or Managed Microsoft XDR services only.
6. The above costs are based on MTI managing an existing fully deployed and configured MDE / MXDR solution, including the conduct of a health check of the existing deployment. Any remediation work required to bring an existing deployment up to a standard for onboarding to the managed service will be quoted on a Time and Materials basis, based on the output of an MTI health check report. For greenfield deployments, MTI will scope and price the provision of professional services to design, document, deploy, and transition to production use on a time-and-materials basis. Once the MDE / MXDR deployment is in production use, the above managed services costs apply.
