Managed Privilege Access Management (PAM) Service Pricing

MTI's Managed Privileged Access Management (PAM) Service is based on the following sizing criteria:

Size Classification	Small	Medium	Large
No. of Protected Target Accounts	1-250	251-750	751-1500
No. of CyberArk Platforms (up to)	10	15	25
No. of CyberArk Component Servers	9	17	26

With the following tiered pricing:

Service	Small	Medium	Large
Once Off Onboarding & Health Check	£9,213	£12,513	£14,713
Managed PAM Service – Annual Price	£61,150	£115,505	£173,399

Notes:

1. Annual Prices are based on a 3 year contract.
2. Payment is provided annually in advance, with invoices payable within 30 days.
3. Pricing excludes VAT, which will be invoiced at the prevailing rate.
4. The Customer is responsible for all their CyberArk platform licensing, maintenance and subscription costs. Pricing above is for MTI-delivered Managed PAM services only.
5. The above costs are based on MTI managing an existing fully deployed and configured PAM solution, including the conduct of a health check of the existing deployment. Any remediation work required to bring an existing deployment up to a standard for onboarding to the managed service will be quoted on a Time and Materials basis, based on the output of an MTI health check report. For greenfield deployments, MTI will scope and price the provision of professional services to design, document, deploy, and transition to production use on a time-and-materials basis. Once the CyberArk deployment is in production use, the above managed services costs apply.
