

SECURITY STRATEGY WORKSHOP

A BECHTLE PACKAGED SOLUTION

Many organisations struggle to prioritise security investments while ensuring alignment with business goals, compliance requirements, and evolving cyber threats. Bechtle's Security Strategy Workshop (SSW) provides a structured approach to security planning, helping organisations make informed decisions, develop a clear roadmap, and align their strategy with best practices and industry standards such as ISO 27001, and Cyber Essentials. Let's take a look at the process:

1 Engage

Initial scoping call to understand security challenges & business objectives.

2 Assess

Identify gaps in governance, compliance, and security posture.

3 Prioritise

Develop a strategic roadmap with risk-based recommendations.

4 Enhance

Support ongoing security improvements with tailored guidance and strategic insights.

Want to see how it works? Ask our team for an example report which can be provided on request.

Start your journey with the Security Strategy Workshop (SSW) and follow the path with additional workshops to strengthen governance, assess security controls, and enhance resilience with ongoing guidance:

You are here

Security Strategy Workshop (SSW)
(Long-term planning)

Security Maturity Workshop (SMW)
(Governance & Compliance Maturity)

Security Posture Workshop (SPW)
(Security Control Effectiveness)

Further tailored services and solutions
