

Vulnerability Assessment

A Bechtle Packaged Solution

A vulnerability assessment helps identify and address weaknesses in your systems, networks, and applications before malicious actors can exploit them. Proactively resolving these vulnerabilities enables you to avoid fines and penalties for non-compliance and can save significant costs associated with data breaches, legal fees, and reputational damage.

BENEFITS OF THIS PACKAGE

- Prioritises remediation efforts, ensuring resources focus on the most critical issues.
- Provides a clearer understanding of the security level of your organisation's assets.
- Identifies vulnerabilities ranging from fundamental design flaws to simple misconfigurations.

WHY BECHTLE?

- Europe's largest IT provider.
- Supporting security strategies for 30+ years.
- Specialised professional services, provided by security certified engineers.
- End to end support across industry leading IT security vendors.
