

Penetration Testing

A Bechtle Packaged Solution

Penetration tests go beyond basic vulnerability scans by simulating real-world attacks on your systems. By actively exploiting weaknesses, they reveal flaws automated tools can miss, helping you understand exactly how an attacker could gain access or disrupt your operations.

These critical insights enable you to prioritise security investments and fix the most serious risks first.

BENEFITS OF THIS PACKAGE

Required by many industries and regulators to show due diligence in cyber security.

Helps meet compliance requirements for data privacy and security frameworks.

Identifies vulnerabilities that could lead to data breaches, reputational harm, and financial loss.

WHY BECHTLE?

- Europe's largest IT provider.
- Supporting security strategies for 30+ years.
- Specialised professional services, provided by security certified engineers.
- End to end support across industry leading IT security vendors.

WHAT'S THE COST?

Prices start from £1,200*
excl. VAT
