

altia. | Transcribe

Fast, accurate and powerful transcription from any medium, with the highest levels of security and a full evidentiary trail.

Save time by automating the process of transcribing any audio file, in just a few minutes, while meeting evidentiary standards.

Why Transcribe?

Flexible packages

Pick the number of users and add a bundle of transcription hours. Transcription hours can be accessed by any user. Any unused hours can be carried over. You can top-up any time.

Save time

Audio files, including video files, can be processed, at a high level of accuracy, at speeds as low as 3 minutes for a 20-minute recording. You can also bulk upload transcriptions.

AI powered summarisation

Powered by AI from Microsoft Cognitive Services, you can get a summary of a conversation, for evidential purposes, with just one click of a button.

Evidential and regulatory compliance

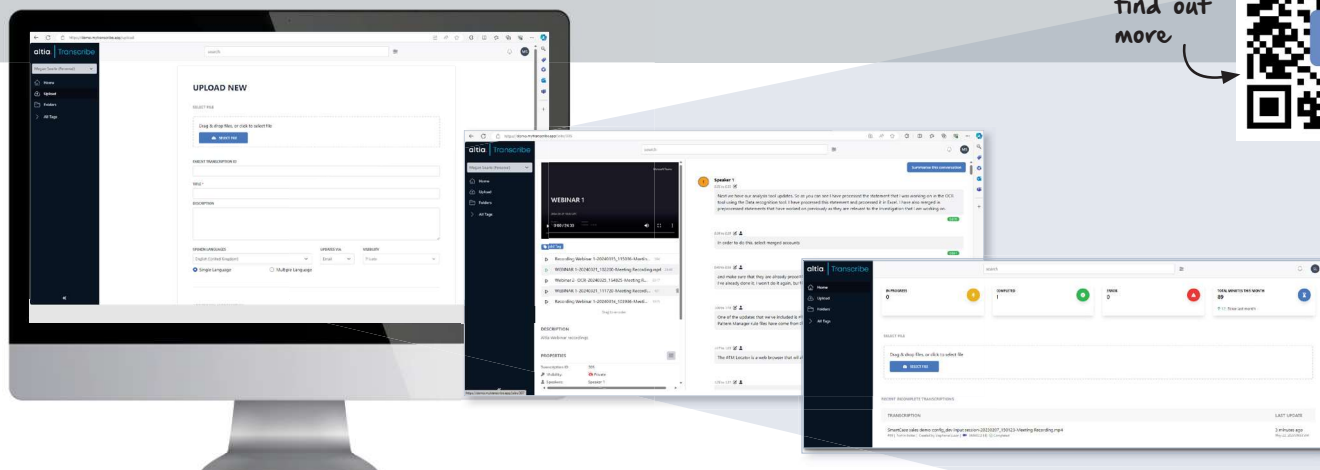

All entries meet evidential standards, with a full audit trail and change log. Transcribe is also Human Rights (Charter), civil liberties compliant, and can be used in conjunction with PACE.

Interactive dashboards

User friendly dashboards enable you to easily upload and manage recordings, track application usage, and share information between users.

Languages

Multi-lingual transcription and selected language translations are available.

The latest security and technology standards

Built using cloud native technology Transcribe comes with latest standards in security, flexibility and resilience. It can be upgraded and adapted to meet compliance and new feature requirements faster than ever without creating a heavy IT or administrative burden.

Security and resilience

- Your own Microsoft Azure environment, plus additional security frameworks applied.
- Strict access control, with two factor authentication and data encryption.
- 99.9% uptime guaranteed by Microsoft Azure.
- 24/7 monitoring of threats.
- Single customer-specific data store, with unlimited storage available.

Always up to date

- We can update Transcribe to meet new compliance requirements, and adapt to new technology advances, faster than ever.
- New features and functionality are regularly released.
- Because we manage the software and infrastructure, there's no burden on you or your IT team to manage install, patches or upgrades. It's all automated.

Support and service

- Self-serve e-learning modules.
- Virtual training available on request.
- Learning videos.
- Technical support desk.
- Account manager.
