

WSO2 Subscription and Services Price List for G-Cloud 15

Your WSO2 Subscription is the heart of our relationship. It includes a license for the software, access to WSO2 Update services, and our acclaimed WSO2 Support services.

We stand with you to ensure rapid, successful, and optimal deployments aligned with your business goals and technical requirements through managed cloud hosting services and expert services for training, QuickStarts, and architecture and configuration reviews.

Accredited educational and legally constituted non-profit organizations that commit to participation in a public case study are eligible for a 10% discount on subscription fees.

Volume discounts are available dependent on your subscription size.

This price list is subject to revision by WSO2 at any time. WSO2 offers services according to the current price list unless a different validity period is specified within the quotation for your project. All prices are exclusive of taxes.

Please note that this price list is applicable to the G-Cloud 15 framework in the United Kingdom only.
