

SILOBREAKER ONLINE

PRICING DOCUMENT

G-CLOUD 15

Silobreaker Online is offered through several **subscription packages**, primarily determined by the number of user accounts and dataset requirements.

All standard tools and features are on an 'all you can eat' basis. This model aims to offer a cost-efficient subscription and encourage customers to maximise their use of Silobreaker without incurring additional variable costs related to usage-levels.

Optional extras can be added to a subscription package for an additional cost. These include the Silobreaker API, extra accounts, extra training, upgraded customer success services, integration of premium data into Silobreaker or Silobreaker features into 3rd party products as well as expert/analyst services.

Package	Mini	Starter	Essential	Ultimate	Centenary
