Services pricing guide

Pricing Guide

Fixed Price

- Pricing for fixed-priced projects depends on the team required, delivery timescales, organisational complexity, and scope certainty
- We work with the customer to achieve the right balance of risk and price
- Fixed-price amounts are calculated using the rates shown in the Pricing section & further in this document

Time & Materials

- Pricing can be provided on a time & material basis for services related to agreed scope and/or deliverables
- The rate provided reflects the FTE, scope and experience required, we work together with the customer to find the right model that works for their business
- Rates are shown in the Pricing section & further in this document

Generic

- Our rates are provided excluding VAT
- Expenses can be capped based on contract value
