

Developer Contribution Service (including Building Safety Levy)

Pricing

Supplier Name: Made Tech

Last updated: January 2026

Overview

The Developer Contribution Service is a cloud-based software service that enables Local Authorities to manage developer contributions, including Community Infrastructure Levy (CIL), Mayoral CIL (MCIL), Section 106 (S106), and the Building Safety Levy (BSL).

Pricing model

Pricing is based on a combination of:

- flat annual licence fees, and
- one-off implementation fees

This approach provides cost certainty while allowing Customers to adopt individual components incrementally.

Levy Module (CIL, BSL, and MCIL)

The Levy Module includes three components: CIL, BSL, and MCIL.

License	Annual Price (excl. VAT)	Implementation fee (per component)
Levy Module	£9,999	£4,999

The annual licence fee is fixed regardless of whether the Customer uses one, two, or all three levy components. Implementation fees are charged as a one-off £4,999 per levy component (CIL, BSL, or MCIL) in the year that component is first implemented.

Additional levy components may be implemented in future years without any increase to the annual licence fee.

Section 106 Module

Section 106 is licensed as a distinct module due to its different data structures and workflows.

License	Annual Price (excl. VAT)	Implementation fee
Section 106 module	£9,999	£4,999

What is included in the licence fee

- All standard product upgrades, including updates required to reflect legislative changes
- Standard customer support during Business Hours
- Infrastructure Funding Statement (IFS) reporting
- API connectivity with Planning Portal and relevant government systems
- Access to Made Tech user community

Implementation & integrations

Implementation services include

- Configuration of the service
- API setup and validation
- Initial data migration
- User onboarding and training
- Go-live support

Contract term discounts

Discounts are available for Customers committing to multi-year contract terms. Discounts apply to the annual licence fee only.

Contract term	Applicable discount
12 months	0%
24 months	5%
36 months	7.5%
