Service Overview

A strategic roadmap and readiness assessment to accelerate your transition to a Modern Workplace. Our consultant-led service identifies cost-saving opportunities, technical blockers, and AI-readiness, delivering a comprehensive business case and implementation plan tailored to public sector efficiency goals.

Features

Modern Workplace Roadmap: Strategy and adoption pathways for M365 and cloud-native environments.

AI & Copilot Readiness: Detailed assessment of data governance and business case creation for AI adoption.

Infrastructure Audit: Review of Active Directory (AD), Group Policy (GPO), and Entra ID (Azure AD) readiness.

Application Compatibility: Identification of legacy application challenges during cloud migration.

Cost & Effort Modelling: Detailed effort calculations and change-cost analysis per recommendation.

Identity & Access Review: Single Sign-On (SSO) and security posture assessment for End User Computing (EUC).

Stakeholder Engagement: Facilitated workshops aligning IT stakeholders with business goals.

Service Improvement: Technology adoption based on ITIL-aligned service improvement frameworks.

Benefits

Evidence-Based Business Case: Secure funding with data-backed cost savings and service improvement metrics.

Accelerated AI Adoption: Move faster with Copilot and ChatGPT by ensuring data is safe and ready.

Risk Mitigation: Identify technical blockers and security gaps *before* spending budget on implementation.

Stakeholder Alignment: Bridge the gap between technical IT teams and business leaders through open discussion.

Prioritised Strategy: Focus your budget on high-impact, low-effort changes first.

Vendor Neutral Advice: Receive objective recommendations tailored to public sector constraints.

Service Delivery

We deliver this engagement in three distinct phases:

1. **Discovery Workshops:** We engage your IT and business leads to audit current EUC technologies and identify pain points.
- 2.
3. **Technical & AI Assessment:** We review your AD/Entra readiness and data security for AI (Copilot) adoption.
- 4.
5. **Strategic Output:** You receive a detailed **Statement of Work (SOW)** and **Business Case**, including 'Model Office' or Pilot testing results to prove performance before full-scale production."

Pricing

Onshore Statement of Work based delivery model the following price and duration applies.

Service	Price (per day)	Ideal for.....
Remote Consultant	£875.00	• <i>Organisations with a remote delivery model</i>
On Site Consultant	£925.00	• <i>Onsite requirements</i>

Invoicing

About APPtechnology

APPtechnology is a leader in digital transformation services, covering project and BAU delivery for large organisations in the UK, Europe and Globally.

We supply flexible teams specialising in Modern Workspace delivery, covering Endpoint Management, Security, Data protection, End User Experience management and technology migrations. We also provide and support delivery of technology solutions covering Legacy application management, and Compliance automation for NIS, ISO, CIMA, DORA and HIPPA Frameworks.

Entirely managed from the UK, we bring experienced governance to all statement of work based delivery, incorporating measurable performance metrics and results analysis in our regular reporting. Where qualified resource supply only is requested we provide models for inside and outside of IR35 payroll, as appropriate to the role and delivery method.

We supply G-Cloud services to the largest (96,000 users) and the smallest local and central government departments and NHS accounts.
