Overview

Northdoor provides clients with visibility into the information they need to grow and succeed – securely.

We deliver transformation at scale and speed through **AIM (Advise, Implement, Manage)**, our unique, proven and award-winning methodology. This approach gives customers clear visibility and control of their IT environment and data, enabling them to make smarter decisions, accelerated growth, and create real business impact.

With over 35 years' experience, we have an established reputation for outstanding customer service, being known across the industry for being there for our customers 24*7*365, ensuring that their IT systems are always available, secure and delivering value.

About Northdoor

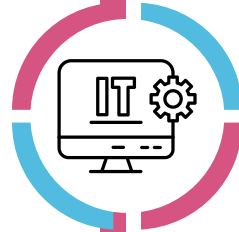

Award winning IT consultancy specialising in data.

Northdoor's 7 Solution Service Practices

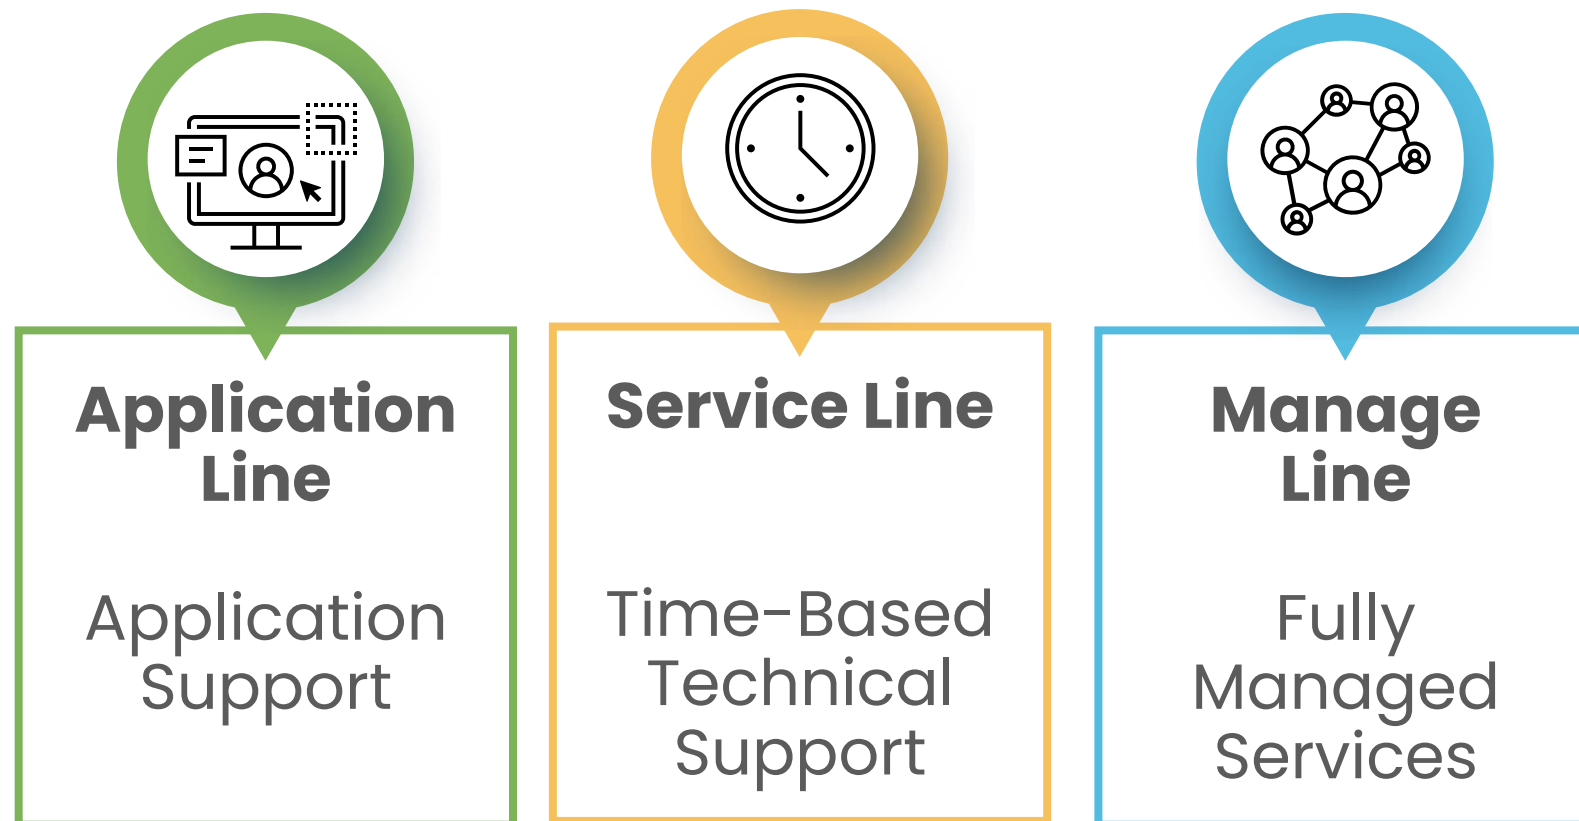

How We Deliver Our Services

Northdoor's AIM Methodology

- Early involvement in solution design
- Strong track record in innovative, holistic solutions
- Intelligent Design Standards
- Trusted Advisor
- We are an extension of our Client's IT Team

Managed Service Offerings

- Designed and built for organisations that do not currently have in-house skills or scale to look after both on-premise as well as cloud-based solutions.
- We ensure your solutions are: always **available**, always **secure**, always **performant** and always **improving**.
- We leverage **ITIL standards**, **Cyber Essentials** and industry **best-practice** to deliver exceptional client-focused services
- Delivered through our Service Desk, 24*7*365
