Dynamic GRC Solutions: Empower Governance, Risk and Compliance Excellence

Description

Transform your security with our Governance, Risk and Compliance (GRC) services. From security maturity assessments and business-focused security risk evaluations, to audit and compliance readiness, we define and deliver cyber programs. Providing end-to-end risk and program governance, data governance, security incident planning, and third-party assurance for a comprehensive security framework.

Features

- **Security Assessments:** Evaluate security maturity across your entire organisational landscape.
- **Business-Centric Risk Analysis:** Assess risks aligned with strategic business objectives.
- **Audit & Compliance Readiness:** Audit preparation with thorough compliance assessments.
- **Tailored Cyber Programs:** Define and deliver customised cybersecurity programs.
- **Data Governance:** Robust frameworks for effective and secure data governance.
- **Incident Response:** Develop strategies for prompt responses to security incidents.
- **Third-Party Assurance:** Verify the security compliance of external vendors.
- **Strategic Security Roadmap:** Develop roadmaps for improvement of security measures.
- **Risk Management:** Implement measure to identify and manage security risks.

Benefits

- **Enhanced Security Posture:** Comprehensive assessments strengthen overall organisation security readiness.
- **Strategic Risk Mitigation:** Business-centric analysis ensures effective risk management alignment.
- **Audit Assurance:** Audit preparation with thorough compliance assessments guarantees success.
- **Optimised Cybersecurity Programs:** Ensure effective and efficient cybersecurity program implementation.
- **Robust Governance Coverage:** Comprehensive governance ensures end-to-end risk management.
- **Effective Data Protection:** Robust frameworks secure and manage data effectively.
- **Incident Response:** Strategic planning for effective security incident responses.
- **Trusted External Collaborations:** Assurance of security compliance for external vendors.
- **Continuous Security Improvement:** Strategic roadmaps for enhancement of security measures.

Cyber Security: Customer Journey

This section gives a brief overview of our project approach that can be adapted depending on the service being delivered. We understand that there is no one-size-fits-all approach to Governance, Risk and Compliance.

Our approach combines flexibility, experience, and industry best practices, and can be adapted to work in waterfall or agile processes to meet your specific needs. Typically, we segment each project, or project phase, into five stages.

Which Strategy Should I Employ?	Which Standard Should I Follow?	Let's Get Organised	Data is my Business	Measure Cybersecurity Effectiveness
• Cyber Strategy Aligned To Business Priorities • Key Assets • Key Business Processes • Board-level Support • Cyber Governance	• ISO 27001 • NIST • SOC2 • CIS18 • Cyber Essentials • FSP • Custom	• Risk Management (inc. 3rd party) • Policy / Standards • Control Set • Cyber Programme • Certification Support • Incident Processes • Privacy Approach	• Data Classification • Data Protection • Data Loss Prevention • GDPR • HIPAA • DSS-PCI	• Security Assessments • Security Reporting & KPIs/KRIs • Assurance • Audit • Compliance

Governance, Risk and Compliance

The foundation for any information security programme is an effective Governance, Risk & Compliance (GRC) function. FSP's action-orientated approach quickly builds an organisational view of risk and compliance and allows prioritised implementation and demonstrable value. We provide practical GRC consulting services that are focused on accelerating security improvement through:

Policy and Standards

Documenting and directing behaviour expected to meet security needs.

Security Controls Framework

Developing risk-based security controls and processes in line with organisational requirements and industry benchmarks.

Cyber Security Programme

Establishing the strategy to ensure security activities are aligned with business objectives and threat profile.

Security Assessments

Independent review of security maturity against best practice and industry benchmarks.

Security Reporting and KPIs

Defining the metrics and communications channels to support effective security decision making.

Security Risk Management

Building Risk Management frameworks to encourage best practice in the consistent management of security risk for people, processes and technology.

Data Governance Services

Governing and harmonising the flow of data to optimise data quality and security.

Security Incident Planning

Establishing and testing the resources, skills, and processes required to navigate an incident with minimal disruption/loss.

Certification Support

Analysis, planning, and implementation of activities required to meet compliance obligations.

Third Party Security

Definition of responsibilities and activities required to provide security assurance within the organisations supply chain.

About FSP

Enterprise Transformation delivered through integrated capabilities

FSP is a leading, trusted transformation partner helping organisations modernise, secure and scale with confidence. Through integrated Data & AI, Cyber Security, Cloud and Change Delivery capabilities, we enable organisations to unlock tangible value, turning strategy into action, and innovation into measurable outcomes.

Our success is underpinned by an unwavering commitment to excellence, a people-centric culture, and best-in-class operations that deliver sustainable results. As a long-standing and highly accredited Microsoft Solutions Partner, with designations across Digital & App Innovation, Modern Work, Security, and Data & AI, we work alongside clients as one team to drive meaningful, lasting change.

We navigate the complexities of data sensitivity, confidentiality, governance and compliance with deep expertise, blending strategic insight with engineering-led delivery to meet the most demanding requirements across highly regulated sectors. Our security and quality credentials, including ISO27001, ISO9001, ISO20000, ISO14001, Cyber Essentials Plus, CREST-approved penetration testing and SOC capabilities, give clients complete confidence in resilience, maturity and operational integrity.

FSP is proud to have been recognised by Best Companies™ as a 3-star 'World Class' workplace (the highest level of accreditation) in 2022, 2023 and 2024, and to have been ranked as No.1 in the UK, No.1 in the South-East (Regional League Table) and Top 5 in the Technology sector. FSP has also been recognised three times as No.1 Best Workplace™ in the UK by Great Place to Work®.

Below is a detailed overview of the services and solutions we provide:

OUR CORE CAPABILITIES BY BUSINESS UNIT

DATA & AI

Data Discovery & Strategy

Data Management

Data Engineering

Data Products

Data Analytics

AI Strategy

AI Engineering

Microsoft AI

Change & Culture

Responsible AI

CYBER SECURITY

Advisory

CISO, VCISO

Architecture & Identity services

Pentesting & Attack Simulation

Audit and assessment

(ISO27001, DCC, CE,CE+)

WHY FSP

Strategy and Change Through Delivery

A holistic, end to end approach to solving client challenges, guiding organisations from strategic planning to successful implementation. As a trusted partner driving transformation, optimised operations and resilience.

Deep Expertise of Offerings and Vendor Independent

Comprehensive solutions across digital strategy, cybersecurity, AI, cloud and data, enabling clients to meet diverse needs through a single trusted partner.

Extensive Experience in Regulated Environments

ISO27001, ISO9001, ISO2000, ISO14001 certifications, along with CREST-approved penetration testing and SOC capabilities, demonstrate a commitment to the highest standards of security and quality. Extensive experience & people security cleared to work in highly regulated and secure environments.

World Class Culture

Multi-award-winning workplace that promotes innovation, collaboration and excellence. Our people-first culture ensures that our team members are motivated, engaged and empowered to deliver their best work.

Best in Class Client Experience

Consistent high NPS scores and externally evidenced at +83. Providing positive experiences that drive long term loyalty and growth, which elevates our client experience to world class standards.

Industry Leading Operations

Operational excellence ensuring scalable, efficient and sustainable delivery. This enables growth, reduces costs and enhances agility, whilst empowering organisations to adapt quickly to market changes.

Our Purpose

Thrive & Succeed

Enable people and organisations to thrive for a successful future

Always Human

Role model human and responsible leadership

Future Impact

Actively contribute to a sustainable future

Unite & Inspire

Unite people and inspire future generations

Our Values

True Belonging

Demonstrating fairness, compassion and empathy

Ensuring a supportive and inclusive environment

Respecting everyone for being themselves

Excellence Everywhere

Operating with pace and consistent high standards

Driving continuous improvement and innovation

Delivering remarkable experiences and interactions

Creating Opportunity

Prioritising mutual success, growth and win-win for everyone

Engaging and impacting our communities

Committing to continuous learning and challenging ourselves

Client Feedback

Major Defence Contractor

"I would like to double down on the statement that they deliver, they are rocksteady, they do what they say they will do, and they are always a pleasure to work with." – *IT Manager*.

Defence Organisation

"FSP impressed me from the very beginning in terms of their approach, knowledge, expertise and output. They are a very versatile organisation with good subject matter expertise and service delivery." – *Head of Programme Management*.

"I have nothing short of a perfect experience working with FSP. The workforce has partnered with me to deliver exceptional service and products to benefit our firm. FSP deliver a stellar service that embeds themselves within the department seamlessly, to the extent that the assumption is they are employees of the firm. They go above and beyond expectations and have personally assisted me in understanding technology offerings." – *Dominic Rodney, Business Relationship Manager*.

Financial Services Organisation

"FSP continually demonstrate experience and value by providing guidance during the process on best practice. The team are always on hand to support the process, and the feedback from the portfolio companies is always very positive. They are always consummate professionals and deliver on their commitments." – *Chief Technology Officer*.

"FSPs strengths are that feeling of partnership, we worked well collaboratively, and I could feel that. They were always approachable." – *Group Digital Workplace Manager.*

"We have been delivering a multi-year digital transformation programme across all aspects of our organisation, moving to a cloud-native architecture and undertaking a complete application transformation. FSP worked with us to define our vision, plan our programme and have been our strategic delivery partner providing invaluable expertise and commitment." – *Head of IT & Transformation.*
