

Practical AI Competency for Executive (PACE) workshop

Practical AI Leadership for UK Public Sector

Ultima Business Solutions and Mindstone have partnered through G-Cloud 15 to deliver transformative AI leadership training specifically designed for senior public sector leaders.

Ultima-Trustmarque

1,000+ employees delivering excellence across the UK public sector

£1bn+ revenue with proven track record

3,000+ customers including NHS and government departments

30+ years of public sector expertise

Mindstone

Trusted by global leaders: **Lufthansa, Home Depot, Hyatt, EBSCO and Pearson**

8 Fortune 100 leadership teams trained

10,000+ employees trained from 40+ customers globally

24k+ members in its practical AI community

A high-impact 2-hour session designed specifically for senior leaders who need to understand AI's strategic potential without getting lost in technical details.

What You'll Gain

- Strategic understanding of AI opportunities
- Practical demonstrations of real tools
- Actionable insights for your organisation
- Public sector-specific context and examples

Delivery Team & Workshop Structure

Josh Wohle

CEO & Workshop Lead

Former co-founder and CPO at Super Awesome ([sold for 9-digit to Epic Games](#)). Creator of the acclaimed "Love AI" demonstration, bringing hands-on AI expertise and practical insights from working with executives. Personally trained executive teams from 8 Fortune 100 companies.

Stefano Piano

Public Sector Expert

Former OECD and Frontier Economics consultant with experience advising 10+ governments and organising training for 20,000+ civil servants on digital transformation. Author of [leading OECD paper on skills for digital government](#).

Workshop Programme

Our carefully structured 2-hour session takes senior leaders on a journey from strategic understanding to practical application, with optional hands-on extension available.

		
Live Demo "Love AI"	Q&A	Public Sector Applications
50 minutes	30 minutes	45 minutes
Interactive walkthrough of AI tools in action, live demonstrations, and structured Q&A to address your specific concerns.	Understanding AI's role in government, addressing the productivity gap, and identifying quick wins for your organisation.	Real OECD examples, identifying opportunities in your context, and developing a practical roadmap forward.

 **Optional Extension:** Add 2 hours of hands-on practice where participants work directly with AI tools on their own use cases, with expert guidance throughout.

Proven Impact & Case Studies

Measurable Outcomes

2x

Belief in Immediate ROI

Leaders double their confidence that AI can deliver returns right away

4x

Two-Year Confidence

Quadruple increase in confidence about AI's strategic impact

Home Depot: case study

"Mindstone showed the power of AI tools in a concise manner that brought in a sense of urgency and gave us a lot of momentum to do what we know we needed to do."

— Ted Decker, CEO, Home Depot

Leadership Aligned

Executive team unified around AI strategy and priorities, eliminating internal friction and debate.

Accelerated Programme

AI implementation timeline compressed by months through executive buy-in and clear direction.

Executive Champions

Senior leaders became active advocates, driving adoption throughout the organisation.

Other Success Stories

Hyatt

Global rollout of AI training initiated following executive alignment on AI strategy

Pearson

Strategic alignment achieved across leadership team, enabling company-wide transformation

Value Proposition & Next Steps

Why This Workshop Matters

Building Strategic AI Leadership

Senior leaders gain the knowledge and confidence to make informed decisions about AI investments, priorities, and organisational change. This isn't about technology: it's about strategic advantage.

Overcoming Risk Aversion with Evidence

Public sector leaders face unique constraints around risk and accountability. We provide evidence-based approaches that demonstrate how to adopt AI responsibly and effectively.

Creating Organisational Urgency

The productivity gap between AI-enabled and traditional organisations is growing rapidly. We help leaders understand why action is needed now and how to mobilise their teams.

Stefano's Public Sector Expertise

With experience advising governments worldwide and training for over 20,000 civil servants, Stefano brings unparalleled understanding of public sector challenges, constraints, and opportunities.

Investment & Deliverables

Investment

£11,000 for 2-hour programme

Pricing varies based on customisation requirements, number of participants, and optional extensions.
