GCloud 15 Framework

January 2026

Product offering via GCloud 15 Framework:

Airbox Systems applications will be available for purchase via the GCloud 15 Framework agreement, including MOSAIC, ACANS, Mission Control, TrackApp and ResilienceDirect.

The price per licence for applications available for purchase under the Framework will be determined based on agreed user numbers and services to be provided. Our pricing overview and discount table has been provided below.

Airbox Systems will provide a formal quotation to each customer with a complete breakdown of all agreed costs and services that will be provided under the contract.

Standard purchases under the framework agreement will include the following (unless otherwise agreed within a formal quote from Airbox):

- Standard mapping and charts.
- Remote train-the-trainer package unless otherwise agreed in writing by Airbox.
- Software support package via a managed service.
- Account Manager(s) and a support team.
- Standard UK office hours helpdesk support service between the hours of 09:00 and 17:00, Monday to Friday.
- Out of hours emergency support in line with out of hours process which defines the prioritisation of queries and resolution times based on this.
- Establish dedicated secure Cloud Server.
- Manage all server-side functionality with a minimum of monthly security patching (or as required), software updates to cover iOS, Android & Windows.
- A standard allowance for GIS schematics and overlays.
