G-Cloud 15 Service Description

**FlowCase: Dynamics
365 for Case
Management**

ABOUT THE SERVICE

FlowCase, built upon Microsoft Dynamics 365, is a transformative tool for public sector case management. It offers web self-service, process automation, and SLA monitoring to significantly decrease workloads and expedite case resolution times. Through the use of real-time dashboards and advanced reporting, the service enhances decision-making capabilities, ensuring a consistent, efficient, and improved case management process.

The service boasts a range of features specifically designed to meet the operational requirements of the public sector. It provides configurable case management solutions and web self-service capabilities that greatly reduce the burden of direct enquiries. Automated processes are implemented to streamline case handling and boost operational efficiency, while SLA monitoring ensures compliance with performance standards. Real-time dashboards give instant access to case management metrics, and advanced reporting tools are available for data-driven decision-making aimed at performance enhancement. Built on the reliable Microsoft Dynamics 365 platform, FlowCase enables consistent case management processes across the public sector, reduces time-to-resolution through efficient workflows, and facilitates adherence to regulatory and policy standards in case handling.

The benefits of using FlowCase include enhanced efficiency in case management via configurable and automated processes, improved public service delivery through quicker case resolutions, and empowerment of citizens with web self-service options that decrease reliance on direct support. The system ensures compliance with service level agreements, enhancing both service quality and accountability. It also supports real-time, data-driven decision-making with comprehensive dashboards and reporting, streamlines workloads to allow staff to focus on more critical tasks, and offers scalability to meet evolving needs in the public sector. FlowCase integrates smoothly with existing Microsoft Dynamics 365 ecosystems, improves operational transparency and performance monitoring with SLA dashboards, and supports regulatory compliance to protect against non-compliance risks.

ON A JOURNEY TO CHANGE, WITH YOU

WORKING TOGETHER TO ACHIEVE YOUR GOALS

NODE4 ASPIRE FRAMEWORK

A delivery framework built for innovation and value creation.

Node4's ASPIRE Framework delivers a consistent customer journey across all our delivery practices and outlines our approach to delivering end-to-end, secure and transformative services.

	 Leicestershire Police Protecting our communities	 Cheshire East Council	 West Midlands Combined Authority	 CareQuality Commission
 Locala Health & Wellbeing	 Ofsted raising standards improving lives	 HS2	 HM Land Registry	 acas working for everyone

CHANGE CLIENTS CAN FEEL AT EVERY LEVEL

CLIENT SUCCESS

FROM 7 DAYS TO 5 MINUTES – A 99.9% REDUCTION IN TIME

ESFRS's previous manual SSRI process meant crews assessing the risk at premises had to make handwritten notes, fill out a Word document and then send an email to their respective Station Manager for approval. This was prior to the SSRI document being uploaded manually to a SSRI system and downloaded to the services' Mobile Data Terminals (MDT), located on each fire appliance, for use when in transit and at incidents. This process could take up to seven days to complete.

ESFRS identified this process needed upgrading to meet aspects of the Grenfell Tower incident recommendations and to modernise the technology in use and reached out to their ICT managed service provider and trusted partner, Telent, to help them kickstart the process.

With the support of strategic partners, Telent have been working with ESFRS since 2016 to transform key operational processes. In this instance, commercial, out-of-the-box solutions were available – but ESFRS and Telent felt that a purpose-built, configurable solution would be better placed to meet all requirements and deliver maximum impact and improve safety.

Telent introduced Node4, to ESFRS and what they had set out to achieve, and together we mapped a way forward for the organisation. The end solution would support ESFRS's digital strategy, with a focus on alignment of digital risk data collection and current guidance, and the introduction of an auditable digital process for collecting and communicating risk data.

“

Self-service was a key driver in this project for us, with risks continuously changing, and new risks regularly being discovered, it was important that any new requirements could be added to the form as and when needed.

CHANGE THAT MATTERS

We empower public and private sector organisations by delivering positive outcomes through technology and innovation.

Harnessing our knowledge, passion and talent we help our clients reach their full potential.

We call it change that matters.

THE JOURNEY SO FAR...

IT'S OUR CULTURE THAT MAKES A REAL DIFFERENCE TO YOU

When it comes to ESG, our actions speak for themselves.

NET ZERO by 2030

We already power our data centres with renewable power. Beyond that, we partner with Carbon Neutral Group to offset our other emissions.

UNITED NATIONS SUSTAINABILITY DEVELOPMENT GOALS

We're continually working to align our CSR strategy and activities with the United Nations 17 Sustainable Development Goals (SDGs) at both a local and national level.

Each of our employees is fuelled by a passion for technology and what it can do to make your organisation grow.

We're vibrant, passionate and united by a dedication to delivering **EXCEPTIONAL SERVICE AS A STANDARD**, not only to our clients, but to each other too.

WHY PARTNER WITH US?

1

PROVEN

20 years delivering outcomes as the IT partner of choice for over 1800 organisations

2

CAPABLE

Utilising our expertise & knowledge from the highest IT accolades & accreditations to deliver innovative technology solutions

3

SCALE & AGILITY

We are big enough to deliver yet agile enough to care, always ensuring exceptional service comes as standard

4

WE DELIVER

Everything we do is developed & executed with your outcomes in mind to ensure we deliver change that matters
