Service Description

Microsoft Power Platform Training

NODE4 © 2026

CHANGE CLIENTS CAN FEEL AT EVERY LEVEL

ABOUT THE SERVICE

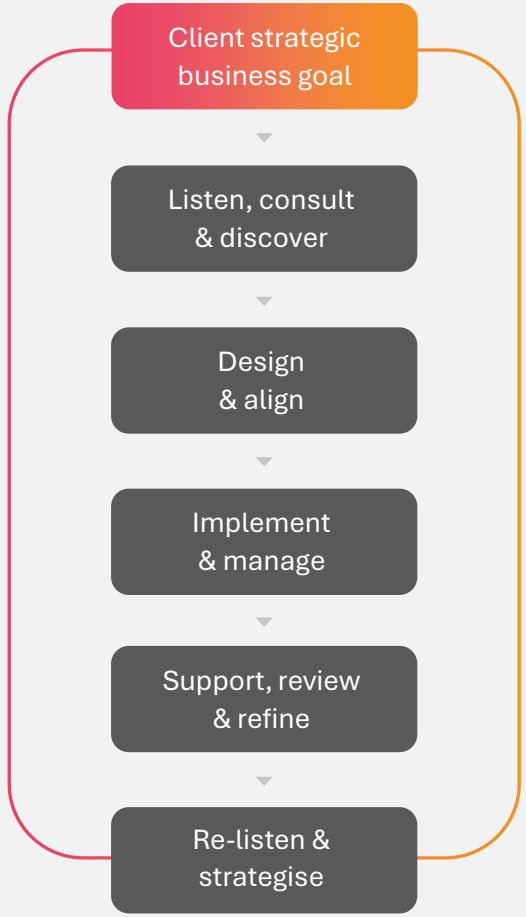

Microsoft Power Platform Training is designed to enable participants to unlock the full capabilities of Power BI, Power Apps, Power Automate, and Power Virtual Agents. Led by experts, this course clarifies the use of data analysis, app development, automation, and AI chatbots, allowing users to create bespoke business solutions that enhance efficiency and foster innovation.

The training includes detailed tutorials on Power BI for data analytics, hands-on exercises with Power Apps for app creation, strategies for workflow automation using Power Automate, techniques for constructing AI chatbots with Power Virtual Agents, best practices for integrating Power Platform services, insights into Power Platform environment management, guidance on utilising the Common Data Service, exploration of features for developers and admins, tips for promoting a data-driven culture, and access to a supportive learning community.

Benefits of this training encompass improved business processes through custom automation, empowerment of employees to develop apps with minimal coding, advanced data analysis and decision-making support, streamlined operations with AI insights, swift adaptation to business changes, reduced operational costs via workflow automation, encouragement of innovation with user-friendly tools, enhanced data governance and security, promotion of team collaboration and productivity, and a basis for ongoing improvement and learning.

However, this training specifically addresses users in the Microsoft ecosystem, potentially presenting integration challenges for organisations not using Microsoft services. The course aims to suit various skill levels, but absolute beginners in data analysis or app development may need more basic knowledge. Due to the Power Platform's continuous development, maintaining skill proficiency requires regular practice and engagement.

ON A JOURNEY TO CHANGE, WITH YOU

WORKING TOGETHER TO ACHIEVE YOUR GOALS

IT'S OUR CULTURE THAT MAKES A REAL DIFFERENCE TO YOU

When it comes to ESG, our actions speak for themselves.

NET ZERO by 2030

We already power our data centres with renewable power. Beyond that, we partner with Carbon Neutral Group to offset our other emissions.

UNITED NATIONS SUSTAINABILITY DEVELOPMENT GOALS

We're continually working to align our CSR strategy and activities with the United Nations 17 Sustainable Development Goals (SDGs) at both a local and national level.

Each of our employees is fuelled by a passion for technology and what it can do to make your organisation grow.

We're vibrant, passionate and united by a dedication to delivering **EXCEPTIONAL SERVICE AS A STANDARD**, not only to our clients, but to each other too.
