G-Cloud 15 Service Description

WAF (Cloudflare)

CHANGE CLIENTS CAN FEEL AT EVERY LEVEL

ABOUT THE SERVICE

Cloudflare's Web Application Firewall (WAF) provides robust, cloud-based protection for web applications, effectively blocking malicious traffic and thwarting common web threats while maintaining high performance. With customisable rulesets and advanced intelligence, Cloudflare's WAF adapts to evolving security challenges, offering real-time threat mitigation.

Key features include cloud-based protection across global content delivery networks, customisable rulesets tailored to application security needs, and real-time threat mitigation with swift response to emerging risks. The WAF integrates seamlessly with existing Cloudflare services, ensuring comprehensive security, and offers automated updates for continuous protection. Its user-friendly interface allows for easy management and rule configuration, while detailed analytics provide enhanced visibility into traffic and threats.

Benefits include enhanced web application security, reduced risk of data breaches, and customisable protection to meet specific application security needs. The WAF ensures business continuity by preventing disruptive cyber-attacks and saves time and resources with automated security management. It also improves website performance while maintaining high security standards and offers scalability to protect growing and evolving web applications. Additionally, Cloudflare's WAF provides peace of mind with industry-leading cybersecurity expertise, facilitates regulatory compliance, and delivers detailed insights for informed security strategy and decision-making.

CHANGE THAT MATTERS

We empower public and private sector organisations by delivering positive outcomes through technology and innovation.

Harnessing our knowledge, passion and talent we help our clients reach their full potential.

We call it change that matters.

THE JOURNEY SO FAR...

IT'S OUR CULTURE THAT MAKES A REAL DIFFERENCE TO YOU

When it comes to ESG, our actions speak for themselves.

NET ZERO by 2030

We already power our data centres with renewable power. Beyond that, we partner with Carbon Neutral Group to offset our other emissions.

UNITED NATIONS SUSTAINABILITY DEVELOPMENT GOALS

We're continually working to align our CSR strategy and activities with the United Nations 17 Sustainable Development Goals (SDGs) at both a local and national level.

Each of our employees is fuelled by a passion for technology and what it can do to make your organisation grow.

We're vibrant, passionate and united by a dedication to delivering **EXCEPTIONAL SERVICE AS A STANDARD**, not only to our clients, but to each other too.
