

# Agilio Feedback

Agilio provide a Feedback application for appraisee, students, appraisers and educational supervisors.

The themes which emerge from peer and professional feedback can assist in professional and educational development.

Our system can help you to deliver personal improvements

## **The issues**

Agilio Feedback is a tried and tested solution to collate and report on peer, colleague, student or patient feedback.

## **The benefits**

- *Improves efficiency.* Our online system enables upload of feedback from peers and educators.
- *Ensures learning.* We understand that this is the critical output from feedback. Ultimately this programme is designed to provide benefits for education and professional development.
- *Data security and quality.* We recognise the importance of accurate, reliable and secure data to give all participants the confidence to make changes based on the evidence of these reviews. Our database is a completely secure and reliable repository of information.
