FEATURES

PRICING OPTIONS

ENGAGE PROCESS SUITE

Definition of users
In the Engage Process Modeler we distinguish Named users and Concurrent users: Named Users is the number of users for which a user profile is stored. This profile includes personal preferences, authorization and project administration.
Concurrent Users is the number of users that can work simultaneously. For the Viewer, the number of Concurrent Users is equivalent to the number of Named Users.

The Engage Process Viewer and Teamboard do not distinguish between named and concurrency, these are equivalent.

The Engage Process Suite Gold and above contains all features and modules we offer in our platform.

Main Components

- **Modeler**: Full featured environment to map, analyse and improve business processes.
- **Viewer:** Digital Process Handbook to share processes across your organisation.
- **Teamboard:** Online agile collaboration boards designed to support agile execution, audits, process improvement, etc.

Modules

- **Brainstorm:** Visual post-it module to capture results of a brainstorm in the Modeler. This includes apps for Android and iOS.
- **Feedback:** Online discussion- and feedback platform in the Viewer which supports continuous improvement by giving users the option to leave notes on processes.
- **Publisher:** Module which organises process governance/publication routes and how published processes are structured in the Viewer.
- **Upload:** Integrated cloud storage for documents, which are added as links to processes and activities.

Administration

PRICING OPTIONS

- **Tables:** Repository to manage uniform, organisation wide attributes such as applications, roles, risks, etc. in a single place.
- **User Manager:** The user administration and authorisation module that controls access to the platform.

User Packs

Organisations can choose to add User Packs on their subscription to increase the number of users. There is no limit to the amount of user packs that can be added to a subscription.

Depending on the existing level of access, users may choose to upgrade their existing access to a higher service level as this offers the best value.

Engage Process Suite Enterprise

This service level facilitates organisation wide process management requirements and removes all user limitations.

The level of pricing depends on organisation types:

- **Local Authorities/Councils:** pricing is based on the number of citizens in the constituency.

Distribution	40%	30%	20%	10%
Sample size	170	127	85	42
Enterprise level	**S**	**M**	**L**	**XL**
Number of citizens	<125k	<200K	<370K	>370K

- ***All others:** pricing is calculated based on the amount of Full Time Employees in the organisation, Engage Process provides a quote upon request.

TRAINING/CONSULTANCY OPTIONS

We are Engage certified trainers and offer consultants with extensive knowledge of the use of the tool in business transformation projects and programmes.

Our focus is to create sustainable capability in your organisations and to ensure knowledge is transferred and that training and other workshops are delivered bespoke to your needs.

We are Lean and Agile offer several training programmes for the use of the Engage Process Suite. This training is given on-site at the customer's location, via webinar or eLearning. Training is given by Engage Process Certified Trainers.

- **Product training**: A practical 1-day training. This training is aimed at getting familiar with the Modeler and includes topics like modelling, analysing processes and improving processes.
- **Key User training:** This training is meant for staff that is responsible for managing setup of the Process Suite including the user-manager, authorization, publisher etc. The Key-User training takes a minimum of ½ day for maximum 3 participants.
- **eLearning:** Our packages deliver the same content we would deliver in onsite or online training
- **Coaching:** Consultants or Engage Process and its partners can assist in a whole range of activities that include the Suite. The coaching-on-the-job sessions are always performed together with the customer's staff and are a combination of hands-on work and training. Managing and executing process workshops is one of the favourite topics of Coaching-on-the-job.
- **Implementation Consultation:** The implementation process is managed and executed by an experienced Engage Process consultant. Involvement of 1 or 2 of your Key Users and additional process consultants of your organization is instrumental for deciding on the best fit for your organization. Involvement of the relevant decision maker is needed.
