Introduction

This document provides details of the pricing schedule for applications available on the from the HorizoNext case management system which are built upon the eVO technology platform.

All prices quoted are exclusive of Value Added Tax (VAT) and are priced on a 'per annum' basis. Each of the HorizoNext applications can be procured independently and separately from one another. There are no 'purchase' costs for any of the applications; it is paid for annually on a 'right to use' basis.

The minimum initial contract period is 24 months.

Hosting

HorizoNext applications are hosted on OVHcloud UK data centres. Hosting services are included as part of the Cloud pricing.

Because HorizoNext applications are built upon the eVO Platform, existing eVO Platform customers – those that use the advanced enterprise GIS and geospatial application technology provided by StatMap – can host their HorizoNext applications on the same server as their eVO Platform enterprise GIS / spatial application servers [and using the same spatial data repository database].

Training

Training is normally delivered via video conferencing for up to 12 users simultaneously. If on-site training is required at the Client's offices, we will provide this at our standard staff rate: £900 per day per trainer. A maximum of 8 persons is permitted on each training course.

Installation

Administrator training for administrators of the HorizoNext case management system – irrespective of the applications being used [comprising groups of up to 3] – is provided by StatMap. This is charged at £900 per day [equating to £1,800].

Service Coverage

Details of the relevant service are provided in the relevant Service Definition document. If you do have further enquiries regarding points upon which the prospective service subscriber, please do contact us by:

E-mail: support@statmap.co.uk

Telephone: 0844 376 4321 (Choose option '2')
