

RM1557.15 (G-Cloud) - Service Definition Document

**Stephen Matthews &
Associates Limited**

Service Name:	Commercial and Project Dashboard Reporting Solution
Service Description:	Our MyView Commercial and Project Management solutions provide toolkits and resources that enable commercial teams and project offices to rapidly design, deploy, and manage cloud-based dashboards and reporting tools. These solutions support effective planning, monitoring, and delivery across commercial and project portfolios. Commercial dashboards include standard reporting views for pipeline, value, savings, spend, sourcing, contracts, suppliers, business customers, markets, compliance, risk, and actions. Reports can be filtered by category, sub-category, team, and individual roles such as commercial leads or contract managers. Project dashboards offer standard views for portfolio pipeline, in-flight project status, risk and issue tracking, time recording, and benefit realisation. Reports are available by programme, project, team, and individual roles such as project or programme managers.
