Pricing for Ascend Ops

Ascend Ops is priced as a subscription SaaS service, based on the number of models managed within the platform. Pricing reflects the level of operational oversight, governance, monitoring, and support provided per model, and scales to support enterprise-level usage.

A one-off setup price applies in addition to the subscription.

Cost	What this covers
Setup fee: One-off setup fee per client.	Initial service onboarding, environment configuration, security setup, access provisioning, and baseline platform configuration required to operationalise Ascend Ops.
Ascend Ops with Experian decisioning platforms (PowerCurve, Delphi Select, and DCM) Cost components: Cost components: - Setup fee - £0 - Experian deployment fee (per model) - £10,000	What this covers: Deployment of models into Experian decisioning platforms with Ascend Ops providing model inventory, hosting, monitoring, governance, and operational oversight within the Experian-managed environment. Cost basis: Ascend Ops with Experian decisioning platforms.
Subscription pricing (models under management) Price basis: Subscription price is determined by	What this covers: Ongoing access to the Ascend Ops platform, model monitoring, governance, audit logging, challenger support, and standard operational support for subscribed models.

the number of models managed in Ascend Ops.

Starting at £70,000 for 1–5 models.

Additional models will be priced at £14,000 per model,

Ascend Ops with client systems integration: Cost components: • Setup fee (per integration) £20,000 • Experian deployment fee (per model) £7,000	What this covers: Integration of Ascend Ops with client-managed systems, including configuration of interfaces, per-model deployment support, and enablement of monitoring and governance within the client’s operating environment. Cost basis: Ascend Ops with client systems integration.
Subscription pricing (models under management) £45,000 per model. Price basis: Subscription price is determined by the number of models managed in Ascend Ops.	What this covers: Ongoing platform access, operational monitoring, governance, audit capabilities, and support for each managed model within the client’s environment.
