

Experian Document Verification

Verify and confirm identity documents
in near real time

The rise of identity theft and fraud continues to challenge businesses as they grow and take on more customers. How do you tell the good customers from the bad, without inconveniencing the good ones? Experian Document Verification helps to lessen the risks, and provide a positive experience for your legitimate customers.

Experian Document Verification is an automated service used for account opening and brings together a comprehensive set of electronic mobile capture and identity verification tools:

Form Auto Fill:

Fast and accurate data pre-fill from ID documents

Document Verify:

Real time document authentication

Facial Comparison Check:

Connect the person to their ID document

Verify Liveness:

Be sure the person is presenting the document in real time

#1 Capture ID

Quick and easy
document capture

#2 Authenticate ID

- Font usage and consistency
- Personal data comparison
- Human face detection
- Security feature verification

#3 Compare face

Compares selfie with ID photo

You don't need any specialised hardware for Experian Document Verification, it's used as part of an app or mobile web journey, using your customer's smart phones, tablets or computers.
