

Purple Team Engagements

The best time to test an organisation's resilience is before it is attacked. QinetiQ's Purple Team Coordinated Attack Simulation is designed to team up our Red Team specialists with your Blue Team defenders to identify tools, signatures and techniques used by threat actors before they become a problem.

Features

- Targeted threat actor emulation in a safe environment
- Wide range of use cases available for exercising
- Access to experienced Red Teamers
- Train the Blue Team to defend against persistent attackers
- Identify tools, signatures and techniques used by threat actors
- Highly experienced, SC and DV-cleared specialists
- Team in operation for over 28 years
- Full reports, delivered securely, detailing vulnerabilities prioritised critical to low

Benefits

- Exercises SOC capabilities in real time with attack methodologies
