Pricing is applied on a per-environment basis. Every separate domain, subdomain, or internal system is considered a distinct environment and is charged individually. Pricing is set according to the estimated total number of pages in the domain, consistent with PSBAR (Public Sector Bodies Accessibility Regulations)/WCAG (Web Content Accessibility Guidelines) sampling guidance, rather than the number of pages analysed in a representative sample.

* We will require the following information to be able to assist you in pricing your opportunity competitively:

- Number of Pages
- Number of monthly site visits
- Number of URL's to be included.
