Stay Compliant, Reduce Risk, and **Protect Your Organisation**

Accessibility laws and standards are evolving fast. Our consultancy team helps you stay ahead of ADA, EAA, Public Sector, and WCAG requirements with expert assessments, tailored guidance, and clear, actionable next steps.

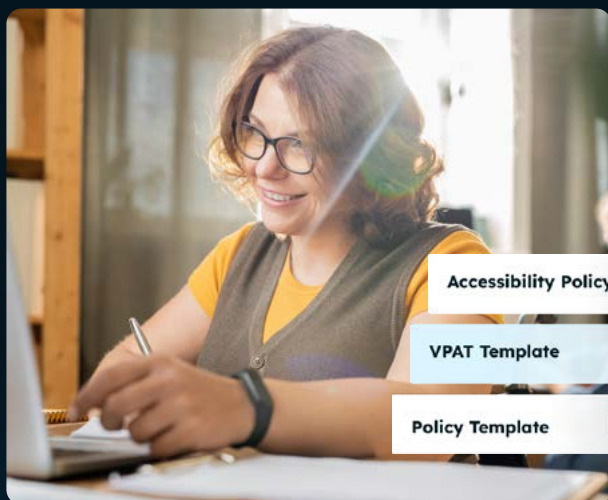

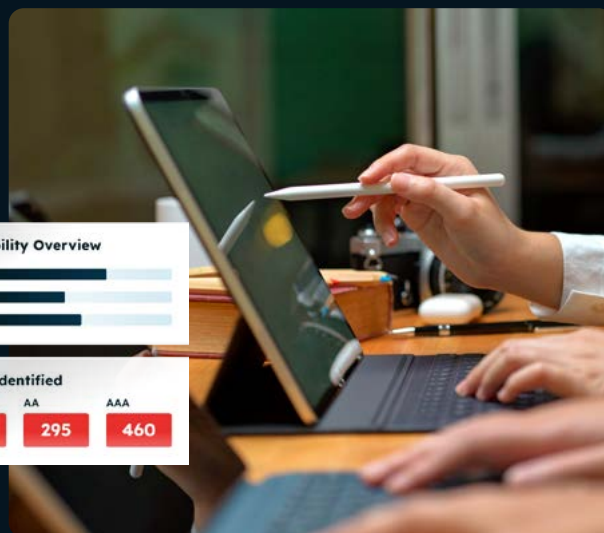

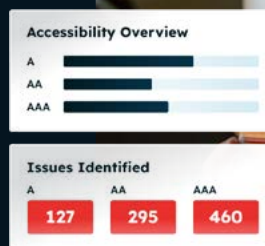

- Identify compliance gaps through expert-led manual audits and assistive technology testing.
- Understand your obligations with clear, consultant-backed explanations of regulatory requirements.

Implement fixes confidently with prioritised recommendations and hands-on remediation support.

Auditing & Assessment

Our Website Manual Accessibility Auditing service is designed to meticulously examine your website and mobile applications for adherence to the Web Content Accessibility Guidelines (WCAG) and other global standards.

-  WCAG & Compliance Analysis
-  Assistive Technology Testing
-  Prioritised Action Plan with clear next steps

Policy & Documentation

We support you with essential documentation demonstrating your commitment and progress toward accessibility compliance and inclusive online experiences.

-  Accessibility Statement Creation
-  VPAT & Legal Documentation
-  User Feedback Integration & Guidance

Remediation, Training & Roadmapping

Equip your team with the knowledge, tools, and long-term strategy to maintain accessibility at scale.

-  Tailored Team Training (WCAG, AT testing, fixing common barriers)
-  Strategic Roadmapping to plan and manage compliance over time
-  Developer-Ready Remediation Support with clear guidance to implement fixes correctly
