Company overview

We're driven by technology and innovation, and by their ability to create meaningful change for organisations and the communities they serve. As a proudly independent and employee-owned consultancy, we bring together a diverse, highly skilled team who thrive on tackling complex challenges, working closely with our clients to deliver solutions that make a real difference.

We partner with organisations across multiple sectors, using data, AI and digital to help turn ambition into outcomes. Our work is recognised by leading industry bodies, reflecting our consistent focus on delivering clear, customer-centred results that stand up in the real world.

How we do it

With over 25 years of experience delivering digital transformation, Answer Digital supports organisations through complex change, with deep expertise in cloud-led delivery. We work in close partnership with our clients to innovate responsibly, embed best practice, and deliver outcomes that last.

Every engagement is different, so we build teams around the challenge, not a fixed model. We start by understanding the vision, the users, and the outcome that really matters. From there, we design solutions that fit your technology landscape, tools, roadmap and people.

Collaboration sits at the heart of how we work. We establish ways of working that are sustainable for teams, processes and practice, then iteratively design, build and test together. We continuously learn, refine and evolve, keeping a clear focus on delivering the right outcome, not just shipping technology.

Responsible AI Strategy, Governance & Productivity Implementation

Service description

We deliver end-to-end AI consultancy, merging responsible strategy, governance, and operating models with rapid implementation. From data readiness to GenAI, LLM, and Copilot automation, we empower public sector organisations to validate use cases, ensure ethical compliance, and deliver measurable productivity gains through upskilling and secure, GDS-aligned digital transformation.

Features

- Comprehensive AI Strategy, Target Operating Model, and Governance Frameworks.
- AI Readiness Assessment, Data Maturity Auditing, and Gap Analysis.
- Ethical AI Frameworks, Safety Protocols, and Regulatory Compliance Support.
- Generative AI, LLMs, Microsoft Copilot, and Agentic AI Adoption.
- Rapid Discovery Labs for Use Case Validation and Prototyping.
- Low-Code, Python, and AI-Driven Development (ADD) Implementation Services.
- Workforce Upskilling, Capability Development, and Cultural Transformation Programmes.
- Risk Management, Bias Detection, and Algorithmic Impact Assessments.
- Robust Business Case Development and Investment Planning for Funding.
- AI Orchestration, Hyperautomation, and Business Process Optimisation Solutions.

Benefits

- Mitigate Financial and Reputational Risks Through Rigorous AI Governance.
- Deliver Measurable Productivity Gains and Operational Efficiency Improvements.
- Ensure Strict Compliance With GDPR, ISO 27001, and Safety Standards.
- Accelerate Adoption of Generative AI, LLMs, and Copilot Technologies.
- Validate Data Maturity and Quality Before Major Implementation Investment.
- Optimise Processes to Prevent Automating Inefficient Legacy Workflows.
- Build Sustainable In-House Capability Through Knowledge Transfer and Upskilling.
- Reduce Shadow IT Risks Through Governed, Secure Corporate Adoption.
- Align Technology Selection With Long-Term Organisational Strategic Objectives.
- Maximise Return on Investment (ROI) With Value-Driven Roadmaps.

Pricing

Answer Digital services are available for procurement through either Fixed Price or Time & Materials arrangements. Please refer to our Pricing Document and Rate Card for further details.
