1 Service Overview

We provide the full range of support services for application rationalisation and decommissioning planning for cloud migration.

These include:

- Discovery
- Situation review
- Stakeholder and user engagement
- ICT landscape analysis
- Application register creation
- In-house versus cloud solution analysis including
 - Application costs
 - Application performance
 - Application usage
- Rationalisation roadmap
- Application consolidation analysis including:
 - Business alignment, strategic relevance, and user value
 - Technical health, scalability, security posture, and cloud-readiness
 - Overlaps, redundancy, and opportunities for consolidation
- Application decommissioning and retirement planning
- Transition and migration planning and management
- Improved application governance
- A standardised application decommissioning process including:
 - Removal of associated infrastructure, storage, backups, network assets, and licences
 - Post decommissioning review of savings / ROI of rationalisation initiative
- Data review and migration

Clients can call on our cloud expertise at each stage of the solution definition and delivery lifecycle. We work collaboratively with you and your team and suppliers.

2 Track Record

We have supported a range of clients with application consolidation and decommissioning activity. For example, at Credit Suisse, we produced a clear definition of the Application Decommissioning process, identified improvement areas, and instigated a fundamental service change as part of a unified approach. We engaged with stakeholders to develop guidance for modelling applications and components in the asset register. We supported application owners to fully decommission applications identified for retirement and remove the infrastructure costs. After 12 weeks, the monthly savings attributed to this activity had exceeded £50K.

Other examples include:

- Helping several police forces to review their current systems with the aim of replacing them with a single cloud solution
- Working with the Home Office to create a single detection system to replace the existing legacy systems
- Supporting Defra to retire and replace existing grant administration systems
- Supporting the Gangmasters Labour Abuse Authority to transition from on-premise to the Cloud, including the rationalisation of applications to cloud-based alternatives

4 About us

Who We Are

BIP is a fast-growing global management consultancy (backed by CVC Capital Partners), employing over 6,000 professionals across 27 offices in 12 countries.

We operate across Europe, the Americas, and the Middle East, including here in the UK, Italy, France, Germany, Spain, Portugal, Switzerland, Austria, Brazil, Chile, Colombia, the UAE, and the US.

We help organisations tackle complex challenges, outpace their competitors, and build a sustainable future through strategic insight, operational excellence, and technology innovation.

In the UK, BIP has been recognised by *The Times* and trusted by FTSE 100 companies, government departments, and industry leaders, establishing itself as one to watch in the consulting landscape.

Our Philosophy: Value, People and Technology

At the heart of everything we do lies a powerful combination: **value, people and technology**. These three pillars enable us to deliver meaningful, scalable, and lasting outcomes for our clients.

We are value creators and business integrators, combining strategic insight with implementation excellence to help organisations move the dial at pace.

Our work is powered by deep expertise in digital transformation, AI, cloud, and technology-led change, ensuring every solution drives sustainable progress *and* measurable impact.

Our Approach: Design to Deliver

We are doers and makers, NOT just PowerPoint writers.

Everything we do is designed to deliver real, measurable change within defined timelines. We ideate, test, and learn, working closely with clients and partners in an open, collaborative way to ensure every solution is built to last.

Our goal is not only to deliver outcomes, but to transfer knowledge, and empower clients to continue their transformation independently.

This partnership model offers long-term value and enables us to focus on where we can make the next biggest impact.

Our Expertise

With deep sector experience across:

- Financial Services
- Government & Public Sector
- Defence & Industries
- Energy, Utilities & Resources
- Telecoms & Media
- Retail & Services
- Life Sciences
- Commercial Real Estate

We bring sharp insight, proven delivery experience, and technological edge to every engagement.

The recent integration of Verco and Riskcare into BIP UK further strengthens our offering, adding market-leading expertise in net zero strategy, sustainability advisory, and financial risk technology.

Here to Dare

“Here to dare” is more than a motto, it is our mindset.

We dare to think and act differently, to explore beyond limits, and to create opportunities through bold innovation and collaboration.

We believe in shared journeys, celebrating results, milestones, and even challenges, because true responsibility means growing together.

We imagine a future where business thrives through the synergy of technology, humanity, and sustainability.

The BIP World

BIP is a world of innovators, designers, data engineers, change managers, producers, and marketers, all working together, infusing each other with ideas, energy, and passion.

We want to leave a mark with what we do and share a journey with every company we work with.

We're 6000 people, 47 nationalities, 12 countries, united by a drive to empower organisations through technology and passion.

Our people, the BIPers, are the heart of our success. They thrive in an environment that encourages self-expression, growth, and balance, inspiring them to engage clients with the values they live by.

5 Other Information

The scope of our G-Cloud Service

The scope of our G-Cloud service is defined in this document and the associated features and benefits. It covers the supply of professional services to support the evaluation, selection and deployment of cloud solutions and services for a range of public sector organisations.

Are we a reseller?

BIP is not a reseller, and we are totally independent of all product vendors and solution providers.

Support provided to buyers

When buyers have shortlisted one or more of our services, they may ask clarification questions prior to purchase. This helps them understand, in more detail, if we are the best supplier for them and how they can benefit from our service. We then use our knowledge of the cloud solution marketplace to advise and guide clients through the specification, selection, and deployment process.

How users work with this G-Cloud service

Users can use this service to obtain professional advisory support for their cloud solution selection, deployment and business transition. This can be on a short term, long term or ad-hoc basis using either selected specialists or a team approach.

Service onboarding and off-boarding process

When a client buys us using one of our G-cloud services, we typically undertake an initiation process at the start of the service to ensure the client's requirements are fully understood and that they are clear about what we will do, how we will do it, and what we will deliver. We will also discuss and agree how any issues will be raised and managed from either side during the service operation.

At the end of the service, we will typically undertake a review with the client to ensure they are happy with what has been delivered and that their expectations have been met. We can also discuss and future support if this is appropriate.

Pricing

We provide services and our day rates are shown in the SFIA rate card for this service.

Service definition and how it will be delivered

The services defined in this document and the associated features and benefits will be delivered by one or more of our consultants with full management support and quality assurance from our public sector portfolio leadership. The service will be delivered from our office, working remotely or at the client's offices, depending on which is most appropriate.

Our security certifications and standards

BIP has the Cyber Essentials Plus Certificate of Assurance which is renewed each year.

Our approach to personnel security

BIP's personnel checking process for new employees includes all components of the employment processes described on Gov.uk, including validating their right to work in the UK.

We cover checking original versions of the necessary documents with the new joiner and making and retaining copies of these documents.

The identity documents and other information gathered are sufficient to enable Government Security checks to be undertaken. BIP maintains an extensive pool of appropriately security cleared consultants.
