

MICROSOFT SECURITY CONSULTANCY

Unlock the full potential
of your Microsoft estate
with our expert
consultancy services

SERVICE OVERVIEW

CND provides tailored solutions designed to align with your business objectives. Whether you're embarking on your Microsoft 365 journey or seeking to optimise your current environment, we're here to support you.

Clients can opt for 'review & report' only, or progress through the support options as needed, from initial review to full implementation:

1. **Review & Report** – A comprehensive assessment of your current setup with actionable insights.
2. **Project Plan** – A structured roadmap to guide your transformation.
3. **Assisted Deployment** – Hands-on support to ensure smooth and effective implementation.

DELIVERABLES

Whether on-site or remote, this service provides you with essential skills and long-term solutions.

1. Subject Matter Expertise on hand.
2. Recommendations with your environment in mind.
3. Skill transfer to other staff members.

SERVICE DETAILS

CND's standard service offerings include the following, all levels would start with 'review & report':

- **Entra & Tenant:** Review of user, collaboration, application, and organisation settings, including conditional access policies.
- **SharePoint:** Assessment of configuration, access controls, and sharing policies to safeguard data.
- **Identity & Access:** Evaluation of conditional access policies and enterprise app permissions, guiding a shift towards zero-trust.
- **Defender Suite:** Review of Defender for Endpoint, Identity, Office, and Cloud Apps configurations.
- **Intune & Devices:** Analysis of device setup in Intune against best practice standards.
- **Azure Security:** Inspection of subscription and resources, with recommendations and misconfiguration highlights.
- **Email Security:** Focus on Defender for Office and broader email protections (SPF, DKIM, DMARC), complementing the Defender review.

Consultancy can be provided for any element/function within the M365 and Defender ecosystem, scoping is available upon request.

PRICING

Review & Report and Project Plan - Prices start from £800 (including 1 service area only).

Assisted Deployment - Prices available upon request, based on a per Consultant per day basis.

Bespoke assessment pricing available on request.
